Afrikaans Linguistics WAM Carstens 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics, *Afrikaans Linguistics: Contemporary Perspectives* marks a seminal contribution to the field. This volume, for the first time, presents accessible insights into diverse linguistics subdisciplines, inviting international scholars to familiarise themselves with Afrikaans language studies. Throughout much of the late 19th and 20th centuries, Afrikaans scholars predominantly communicated in Afrikaans, resulting in a significant gap in the dissemination of knowledge about the language. The chapters in this book, written by prominent South Africans, as well as international scholars working in the field of Afrikaans, serve as a pivotal bridge, by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century. The primary focus remains on illuminating 21st century research trajectories, offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics.

Assessing Academic Literacy in a Multilingual Society Albert Weideman 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and, to a much lesser extent, Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students, not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Essays in Public Theology Dirkie Smit 2007-04-01 What is the role of the church in society? What role did the church play in South Africa? during apartheid, in the struggle against apartheid and during the period of transformation? The essays collected and published in this volume deal with questions such as these. They are all occasional pieces. They were written over two decades and reflect the times in which they originated? always intended for specific audiences, always addressing issues of the particular moment.

Subjectivity, Language and the Postcolonial Hannah Botsis 2017-11-10 In *Subjectivity, Language and the Postcolonial*, Hannah Botsis draws on theoretical work that exists at the intersection of critical social psychology, sociolinguistics and the political economy of language, to examine the relationships between language, subjectivity, materiality and political context. The book foregrounds the ways in which the work of Bourdieu could be read in conjunction with 'poststructural' theorists such as Butler and Derrida to offer a critical understanding of subjectivity, language and power in postcolonial contexts. This critical engagement with theorists traditionally from outside of psychology allows for a situated approach to understanding the embodied and symbolic possibilities and constraints for the postcolonial subject. This exploration opens up how micro-politics of power are refracted through ideological categories such as language, race and class in post-apartheid South Africa. Also drawing on the empirical findings of original research undertaken in the South African context on students' linguistic biographies, the book offers a unique perspective - critical social theory is brought to bear on the empirical linguistic biographies of postcolonial subjects, offering insight into how power is negotiated in the postcolonial symbolic economy. Ideal for advanced undergraduate and postgraduate

students on courses including social psychology, sociolinguistics, sociology, politics, and education, this is an invaluable resource for students and researchers alike.
