Proceedings of the International Conference on Law, Economic & Good Governance (IC-LAW 2023) Abdul Kadir Jaelani 2024-02-21 This is an open access book. The position of Indonesia and most countries in IMF calculations, facing the same challenges. Each country requires the legal instruments of a good and reliable system of Government to guard against the worst possible economic turmoil. Good governance is an insistence of the constitution in the economic Article 33 paragraph (5), subsequently published Constitution Number: 30 Year of 2014 on Government Administration, contains 17 principles of a good governance. One of the important points of the principle is a government without corruption and manipulation of policy concepts in order to provide access to consolidation in politics and economy. The latest Transparency International report for 2023 shows that Indonesia's corruption perception index was recorded at 34 points on a scale of 0-100 in 2022. This is a 4-point decrease from the previous year. This decline in the CPI also brought down the ranking of Indonesia's CPI globally. It was noted that Indonesia's CPI in 2022 ranked 110th. In the previous year, Indonesia's CPI was ranked 96th globally. Good Governance is all aspects related to the control and supervision of the power of the Government in carrying out its functions through formal and informal institutions. To implement the principles of Good Governance and Clean Government, the Government must implement the principles of accountability and efficient resource management. Good and clean governance will contribute to economic growth and economic growth will have an impact on human development. During the last decades of 20th century, the needs for a good governance has given some impacts and became a recurring theme in literature related to human development. The intervention of government or the quality of government become crucially important in relation to the high achievement of human development. Whereas an effort in improving society's welfare is through economic development. One of dominant aspects in economic development is through legal development. Good law or policy in such country will have some impacts to the existence of good economic growth because supremacy of law is one aspect of a good governance. Law supremacy is an important institution which is related to economic growth because rule of law ensures personal safety, property rights, unbiased contract enforcement, stability of politics, freedom of speech and control of corruption. According to those various issues and debates on economic, legal development and good governance, then the Doctoral Program of the Faculty of Law Sebelas Maret University needs to hold an international conference as a place in exchanging some academic ideas in order to contribute to those legal issues with a theme, "INTERNATIONAL CONFERENCE ON LAW, ECONOMICS, AND GOOD GOVERNANCE"

The Turkish minority in Western Thrace Evelin Verhás 2019-10-23

The Turkish minority in Western Thrace has inhabited the region for centuries. However, despite a raft of protections in domestic and international law, they remain unrecognized by the Greek government. [This report] highlights the barriers still confronting the community today. This situation has resulted in a wide range of restrictions on their ability to establish associations, practice their culture and provide education in the Turkish language, representing a serious threat to their identity, participation and self-expression. The Turkish minority also faces a number of obstructions of their religious freedoms, including state interference in the appointment of their spiritual leaders. The rights of the Turkish minority continue to be determined by a framework established almost a century ago, despite Greece's accession to a host of international human rights treaties and its obligations as a member of the European Union. In this context, Greek authorities must take immediate steps to recognize the Turkish minority in Western Thrace and remove all barriers to the full enjoyment of their rights.

Proceedings of the 3rd Universitas Lampung International

Conference on Social Sciences (ULICoSS 2022) Ryzal Perdana

2023-05-03 This is an open access book. The 3rd Universitas Lampung International Conference on Social Sciences (ULICoSS) 2022 (ULICoSS) 2022 is an international conference organized by the Institute for Research and Community Services, Universitas Lampung, Indonesia. The event took place on 6th - 7th September 2022 in Bandar Lampung City, on the Indonesian island of Sumatra. This event will adopt a hybrid working model, combining an in-person event with an online meeting via Zoom. Attendees and presenters are expected to interact in this way, using technology to connect to global networks. As has been widely stated in the literature, a number of reports and papers have examined the pandemic's negative effects, with the majority of work to date focusing on COVID-19's negative impact on psychological well-being. Thus, social adjustment is required for resilience in order to adapt to and change in the face of adversity. In other words, it is clear that social adjustment, which includes the specific behaviors and abilities that people use to deal with daily problems and adapt to changing circumstances, is critical for global resilience today. As such, this international conference, which will feature five invited keynote speakers from the Czech Republic, Hungary, Indonesia, and Japan is intended to serve as a forum for the dissemination of specific alternative and significant breakthroughs in rapid social adjustments for global resilience, with an emphasis on global society, social welfare and development, and innovative communication, among other topics. Therefore, we invite scholars, academics, researchers, experts, practitioners, and university students to participate and share perspectives, experiences, and research findings by submitting papers on a variety of topics relevant to the conference's theme and scope. All abstracts and papers submitted for consideration will undergo a double-blind peer review process to ensure their quality, relevance, and originality.

Proceedings of the 6th International Conference on Humanities

and Social Science (ICHSS 2025) Evania Yafie 2026-01-22 This is an

open access book. Southeast Asia is home to vibrant cultures, dynamic economies, and complex histories. Yet, beneath this diversity lies a persistent reality—numerous communities remain marginalised due to structural inequalities, historical injustices, and socio-political exclusions. This conference considers the historical and contemporary processes of marginalisation in Southeast Asia, analysing how structural forces perpetuate social exclusion while also exploring the resilience and resistance of marginalised communities. Drawing on case studies from various Southeast Asian countries, the conference could provide a

comprehensive understanding of the mechanisms of marginalisation and how affected communities navigate and contest their conditions. By amplifying these voices, this research contributes to the broader discourse on equity, inclusion, and policy interventions aimed at fostering a more just and inclusive Southeast Asian society.
