

Sap Performance Optimization Guide

Enterprise Information Systems Rainer Weber 2026-01-01 This textbook presents the fundamentals of both transactional and analytical enterprise information systems, including their operation and integration in a system landscape. Its particular concern is to establish a close connection between business and computer science topics, e.g. related to the modeling of business objects and business data, or for the integration of enterprise information systems. The book is structured in three parts. "System Models" deals with the two types of enterprise information systems, transactional and analytical systems. It also introduces the various platforms, ranging from the "classic" three-tier client-server architecture to newer developments like in-memory computing, and discusses deployment options like pairs on-premises and cloud on the one hand, and monolithic systems and microservices on the other. Next, "Integration" deals with technical aspects for the combination of several enterprise information systems, describing a variety of techniques: integration via the user interface, through data exchange, through message brokers and Web services, or via process management systems. Eventually "Operations" covers topics related to the whole system lifecycle from selection and implementation to access control and administration. The book is primarily aimed at bachelor students in information systems, who deal with the architecture of enterprise information systems. It can also be used by practitioners in industry for either self-study or to gain insight into information systems. To illustrate concepts, realizations in selected enterprise information systems such as SAP, Microsoft Dynamics 365 Business Central, Vtiger CRM and Pentaho are described.

SAP APO System Administration Liane Will 2003 The administration tasks of an APO System differ significantly from those you may be used to with your R/3 System. This book introduces you to the architectural innovations of an APO System and to the distinctive features of APO Administration. Get up to speed quickly on the management of liveCache, a central element of APO. You also learn about LCApps, which put the application logic into effect, and key optimization factors. Performance, a critical element in the successful use of APO, is a major focus throughout. This book is suitable for use as preparation for your APO consultant certification, and the included CD contains detailed roadmaps for APO introduction and

maintenance.

Digital Accounting Ashutosh Deshmukh
2006-01-01 This volume provides a foundation in digital accounting by covering such fundamental topics as accounting software, XBRL (eXtensible Business Reporting Language), and EDI. The effects of the Internet and ERP on accounting are classified and presented for each accounting cycle, along with a comprehensive discussion of online controls.

Performance Evaluation: Metrics, Models and Benchmarks Samuel Kounev 2008-06-16 This book constitutes the thoroughly refereed proceedings of the SPEC International Performance Evaluation Workshop, SIPEW 2008, held in Darmstadt, Germany, in June 2008. The 17 revised full papers presented were carefully selected out of 39 submissions for inclusion in the book. The papers are organized in topical sections on models for software performance engineering; benchmarks and workload characterization; Web services and service-oriented architectures; power and performance; and profiling, monitoring and optimization.

SAP Performance Optimization Thomas Schneider 2003 Optimize the performance and economical running of your SAP-System - the new edition of this book shows you how! Whether you administer an R/3 or one of the newest mySAP-Solutions, you learn how to systematically identify and analyze performance problems. Another focus is the adaptation of appropriate tuning measures and verification of success. Performance optimization includes the technical side as well as the analysis of applications. For the new edition the book has been thoroughly revised and brought up to date. A new chapter provides insight into the connection of the system to the Internet with the help of Web AS.

The six volumes cover the following topics: Part I: Information design and visualization; emotional interaction and persuasive design; and interactive systems and user behavior. Part II: UX design and evaluation methodologies; inclusive design and accessible experiences; and product and industrial design. Part III: Design and the digital transmission of culture; design for arts and creativity; and designing for health and therapeutic experiences. Part IV: Consumer experience and service design; design and evaluation of technology-enhanced learning; and UX in automotive and transportation. Part V: Design education and professional practice; and human-centered design and interactive experiences. Part VI: AI and the future of UX design; and UX in AI and emerging technologies.

SAP BW Performance Optimization Guide

Thomas Schröder 2006 Finally, a detailed reference that gives administrators expert instruction to analyze and optimize performance in SAP BW. All the BW basics are covered such as architecture and data modelling, plus the ins and outs of systematic performance analysis, as well as volumes of valuable data design tips. Readers get an in-depth introduction to SAP BW indices, statistics, and database optimizers and learn about the key aspects of reporting performance. Full-length chapters deal with aggregates as well as extraction and loading performance. Plus, of course, the mission-critical

topics of compression and InfoCube partitioning are discussed extensively. The depth and breadth of the information in this book, together with practical guidance that you can use right away, gives administrators the tools to analyze and tune BW performance immediately.

Highlights include: BW architecture, sizing, and data modeling System load analysis Indices and database statistics Reporting performance: OLAP Cache, query monitor and trace, BW Reporting Agent, front-end performance and network, BEx queries and Excel workbooks Aggregates Compression and partitioning Extraction and loading performance: Integration of data sources, data flow, communication and transfer techniques, Persistent Staging Area, performance aspects for load, data extraction, and data transformation processes Update of InfoCubes and ODS objects

SAP Performance Optimization Guide

Thomas Schneider 2010-10-01 SAP Performance Optimization Guide is the definitive compendium on performance for all SAP components. This new edition contains all the valuable information of the previous editions: the fundamentals of analyzing and optimizing SAP system performance, critical architectural aspects of all important SAP backend servers, and tools and hints for analyzing and tuning performance. The author has also added a new focus on SAP NetWeaver BW, including new concepts in index design and data modeling, as well as coverage of SAP NetWeaver BW Accelerator, based on TREX. In addition to the SAP NetWeaver BW content, the book is further enriched with updates related to SAP NetWeaver 7.1 and SAP Solution Manager Enterprise Edition, and also provides more in-depth information on sizing. After reading this book, you will be able to analyze and resolve any standard performance problem in any given SAP component.

Computer Performance Engineering Nigel Thomas 2011-10-05 This book constitutes the refereed proceedings of the 8th European Performance Engineering Workshop, EPEW 2011, held in The English Lake District in October 2011. The 16 regular papers and 6 poster presentations papers presented together with 2 invited talks were carefully reviewed and selected from numerous submissions. The papers are organized in topical sections on

performance-oriented design and analysis methods, model checking and validation, simulation techniques and experimental design, performability modelling and performance and power consumption tradeoffs.
