Queer Theory and Communication Gust Yep
2014-06-17 Get a queer perspective on communication theory! *Queer Theory and Communication: From Disciplining Queers to Queering the Discipline(s)* is a conversation starter, sparking smart talk about sexuality in the communication discipline and beyond. Edited by members of The San Francisco Radical Trio, the book integrates current queer theory, research, and interventions to create a critical lens with which to view the damaging effects of heteronormativity on personal, social, and cultural levels, and to see the possibilities for change through social and cultural transformation. *Queer Theory and Communication* represents a commitment to

positive social change by imagining different social realities and sharing ideas, passions, and lived experiences. As the communication discipline begins to recognize queer theory as a vital and viable intellectual movement equal to that of Gay and Lesbian studies, the opportunity is here to take current queer scholarship beyond conference papers and presentations. *Queer Theory and Communication* has five objectives: 1) to integrate and disseminate current queer scholarship to a larger audience-academic and nonacademic; 2) to examine the potential implications of queer theory in human communication theory and research in a variety of contexts; 3) to stimulate dialogue among queer scholars; 4) to set a preliminary research agenda; and 5) to explore the implications of the

scholarship in cultural politics and personal empowerment and transformation. *Queer Theory and Communication* boasts an esteemed panel of academics, artists, activists, editors, and essayists. Contributors include: John Nguyet Erni, editor of *Asian Media Studies* and Research & Analysis Program Board member for GLAAD Joshua Gamson, author of *Freaks Talk Back: Tabloid Talk Shows and Sexual Nonconformity* Sally Miller Gerahart, author, activist, and actress Judith Halberstam, author of *Female Masculinity* David M. Halperin, author of *How to Do the History of Homosexuality* E. Patrick Johnson, editor of *Black Queer Studies* Kevin Kumashiro, author of *Troubling Education: Queer Activism and Antioppressive Pedagogy* Thomas Nakayama, co-editor of *Whiteness: The Communication of Social Identity* A. Susan Owen, author of *Bad Girls: Cultural Politics and Media Representations of Transgressive Women* William F. Pinar, author of *Autobiography, Politics, and Sexuality*, and editor of *Queer*

Theory in Education Ralph Smith, co-author of *Progay/antigay: The Rhetorical War over Sexuality* *Queer Theory and Communication: From Disciplining Queers to Queering the Discipline(s)* is an essential addition to the critical consciousness of anyone involved in communication, media studies, cultural studies, gender studies, and the study of human sexuality, whether in the classroom, the boardroom, or the bedroom.

The Nonverbal Communication Reader Laura K. Guerrero 2008

Communicating Nonverbally Kathryn Sue Young 2007-10-15 Useful knowledge about nonverbal communication is much more than simply recognizing terms and theories. Effective nonverbal communication is an applied skill contributing to perceptions of credibility, trustworthiness, reliability, and professionalism. Nonverbal communication skills are essential for a successful social life and career. Through numerous examples and exercises, this engagingly written, practical guide to nonverbal communication helps the reader recognize the available choices for nonverbal behavior and potential consequences of those choices. The

complexity of a diverse workplace brings new subtleties to the concepts that form the foundation of nonverbal communication. Are the messages we are sending and receiving being decoded appropriately? Technology adds another dynamic to nonverbal communication, but the basic skills of using image, space, movement, message delivery, and time to present oneself well remain indispensable in all contexts. The authors outline a number of challenges that test nonverbal competence and encourage readers to embrace the opportunities to hone their nonverbal communication skills.

Real Communication: An Introduction with Mass Communication Dan O'Hair 2012-01-16 Real Communication uses stories from real people and the world around us to present the best and most lively introduction to communication concepts. Professors and students alike have fallen in love with Real Communication's down-to-earth writing style, its coverage of research, and its wealth of learning and teaching tools.

They also appreciate how Real Communication strives to weave the discipline's different strands together with the CONNECT feature that shows students how concepts work and apply across interpersonal, small group, public speaking, and mass media contexts. The Second Edition is even better with a broader array of engaging examples, new coverage of hot topics in the field like Intercultural and mediated communication, plus a public speaking unit honed to provide the essential information students need for this fast-paced course. A new chapter on mass communication connects topics like media convergence, mediated communication, media messages, and media effects to everyday communication.

The Nonverbal Communication Reader

Laura K. Guerrero 1999 "A collection of 52 previously published articles designed to serve as a textbook of an undergraduate course in nonverbal communication. Primarily focusing on research in the field of communication, the

contributions are organized into sections on beginning perspectives, kinesic clues, appearance and adornment cues, contact codes, vocalics (the use of sound and silence), time and place codes, expressing emotion and intimacy, power and persuasion, creating impressions and managing interaction, and contemporary theory." -- c. The New Handbook of Language and Social Psychology

W. Peter Robinson 2001-06-08 What makes a good argument? How is language used to create social influence? How social is computer-mediated communication? This new, fully updated and revised The New Handbook of Language and Social Psychology reflects the increasingly diverse range of linguistic topics that social psychologists have investigated over the decade since the previous edition of this seminal work was published. Whilst the basic organization of the text remains the same, explanatory frameworks are accorded greater prominence than before and persons are seen as

agents of communicative interaction rather than as victims of external forces. Processes and actions are highlighted, i.e. how people do what they do and how they manage the discourse. In the final section, several applied topics reflect our changing lifestyle: computer-mediated communication, mass media, and organizations. The New Handbook of Language and Social Psychology is an essential source book for all psychologists concerned with language and how it functions in human communication. Those interested in interpersonal and intergroup social relations will find much relevance, as will practitioners and other professionals working in health and welfare, multilingual contexts, and organizations.

The latter features volumes devoted to a large range of specialist areas of communication science. The series as a whole aims at meeting the needs of undergraduates, postgraduates, academics and researchers across the area of

Human Communication Stewart L. Tubbs 2003 Intended for the introductory communication concepts course (versus the performance-oriented hybrid course), *Human Communication: Principles and Contexts* focuses on the principles of speech communication and its contexts. The award-winning authors, an academic and a professional writer, write engagingly, strive to link theory and research with fundamental concepts, and to enliven the exposition with intriguing case studies, useful interpersonal skills and stimulating examples. Tubbs and Moss show a true understanding and sensitivity to diversity, a reflection of their professional interests in gender and cultural issues. Stewart Tubbs is the Darrell S. Cooper Professor of Leadership in the School of Business at Eastern Michigan University. Sylvia Moss received the Whiting Writer's Award for her poetry and has twice been a Yaddo Fellow.
