Louis and Antoinette Vincent Cronin 1996 Historically called frivolous pleasure-seekers which cost them their heads, Louis XVI of France and his Queen, Antoinette, here emerge in a quite different light. Against the backdrop of a glittering court, their relationship and personalities unfold toward the violent upheavals of revolution in 1789. This brilliantly researched dual biography celebrates two of history's least known and most consistently misrepresented royal figures.

East Central Europe since 1989 Sabrina P. Ramet 2024-12-12 This groundbreaking treatment of post-communist developments in East Central Europe examines politics, economics, media, religious institutions, transitional justice, gender inequality, and literature, highlighting the overt functions, latent functions, and side effects associated with each sphere. Communism in East Central Europe had cracks from the beginning, as uprisings in East Germany in 1953 and Hungary in 1956 demonstrated. But with the establishment of the Independent Trade Union Solidarity in Poland in the Summer of 1980, communism went into steady decline and, between 1988 and 1991, crumbled. What followed has been an unsteady transition to various forms of often corrupt pluralism with democracy doing best in the Czech Republic (with the exception of the years 2017-2021) and Slovenia, and worst in Hungary, Albania, Serbia, and Bosnia-Herzegovina. Drawing on the functionalist theory of Robert K. Merton, the authors examine what policymakers - communist and post-communist - were or are trying to

accomplish, the intended and unintended results of these policies, and the side-effects they have produced. This volume will be of interest not only to specialists in East Central Europe but also to graduate and undergraduate students, members of the diplomatic corps, and general readers.

Bosnian Chronicle, Or, The Days of the Consuls Ivo Andrić 1996 Set in the provincial town of Travnik, then part of the Ottoman Empire, *Bosnian Chronicle* tells of the struggle for supremacy in a region that stubbornly refuses to submit to any outsider. The era is Napoleonic and the novel, both in its historical scope and in its psychological subtlety, is Tolstoyan. Told from the viewpoint of the French consul, a rationalist who struggles to make sense of Balkan life, the novel presents Ottoman viziers, foreign visitors and Austrian plenipotentiaries, all consumed by an endless game of diplomacy and double-dealing. Courtly and expansive face-to-face, they brood and scheme behind closed doors. As they have for centuries, the Bosnians themselves observe and endure the machinations of the greater powers that vie, futilely, to absorb them. Ivo Andrić's masterwork is imbued with the richness and complexity of a region that has brought so much tragedy to our century and known so little peace.

Architecture and Control 2018-01-03 *Architecture and Control* makes a collective critical intervention into the relationship between architecture, including virtual architectures, and practices of control since the turn of the twentieth to twenty-first centuries. Authors from the fields of architectural theory, literature, film and cultural studies come together here with visual artists to explore the contested sites at which, in the present day, attempts at gaining control give rise to architectures of control as well as the potential for architectures of resistance. Together, these contributions make clear how a variety of post-2000 architectures enable control to be established, all the while observing how certain architectures and infrastructures allow for alternative, progressive modes of control, and even modes of the unforeseen and the uncontrolled, to arise. Contributors are: Pablo Bustinduy, Rafael

Dernbach, Alexander R. Galloway, Hans Ulrich Gumbrecht, Maria Finn, Runa Johannessen, Natalie Koerner, Michael Krause, Samantha Martin-McAuliffe, Lorna Muir, Mikkel Bolt Rasmussen, Anne Elisabeth Sejten and Joey Whitfield

The Plague-spreader's Tale Gesualdo Bufalino 1999 In the last year of World War II the narrator of *The Plague-Spreader's Tale* is sent to a TB sanatorium near Palermo. The place is like a leper colony. People arrive but they never leave until they are dead, usually within a matter of months. The narrator is a young man straight out of the army who has been diagnosed with the fatal disease. The doctor is a lean rake of a man who, like most of the medical staff, has the illness in his cells. However, the sap of life cannot be stopped from flowing and the narrator falls in love with a woman patient. She was once a ballerina, and has not lost her grace. She leads her suitor a merry dance as her attitude varies from the come-hither to cloistered retreat. How much of a future can the pair build for themselves on these shifting sands?

Catherine, Empress of All the Russias Vincent Cronin 1978 Catherine the Great was one of the most remarkable women in history. Born in 1729 into the family of one of the lesser princelings of Germany, she was married to the heir to the Russian throne at the age of 16. The marriage was an unhappy one and Catherine was banished from her husband's palace but, when Peter came to the throne and was then ousted from it in the space of a few months, it was Catherine who replaced him and became Empress. She ruled her vast domain for more than thirty years, until her death in 1796, and greatly expanded its territories. In her lifetime and since she has been infamous for her intrigues, her possible involvement in political murders, including that of her dethroned husband, and her numerous love affairs. Vincent Cronin's highly readable biography sifts the facts from the legends in Catherine's extraordinary life.

The Pyramid Ismail Kadare 2011-11-21 Egypt in the twenty-sixth century BC. The young pharaoh Cheops wants to forgo the construction of a pyramid in his honor, but his court sages hasten to persuade him otherwise. The pyramid, they tell him, is not a tomb but a paradox,

designed to appease the masses by oppressing them. It is a symbol of nothing, a useless and infinite project designed to waste the country's wealth and keep security and prosperity, ever the fonts of sedition, constantly at bay. And so the greatest pyramid in the world has ever seen begins to rise. Rumors multiply. A secret police is formed.

Conspiracies—real and imagined—swirl around the rising edifice. The most drastic purges follow. By the time the first stone is laid, Cheops's subjects are terrified enough to yield to his most murderous whims. Each time one of the massive stones is hoisted into place, dozens of men are crushed, and there are tens of thousands of stones. . . .

The Columbia Guide to the Literatures of Eastern Europe Since 1945

Harold B. Segel 2003 The Iron Curtain concealed from western eyes a vital group of national and regional writers. Marked by not only geographical proximity but also by the shared experience of communism and its collapse, the countries of Eastern Europe--Poland, Hungary, Albania, Romania, Bulgaria, and the former states of Yugoslavia, Czechoslovakia, and East Germany--share literatures that reveal many

common themes when examined together. Compiled by a leading scholar, the guide includes an overview of literary trends in historical context; a listing of some 700 authors by country; and an A-to-Z section of articles on the most influential writers.

Journeys to Albania; Land of Besa Kalman Dubov 2024-02-18

Although tiny in comparison with other European countries, Albania looms large in terms of its people, culture and history. Blessed by an abundance of natural resources, together with the resourcefulness of its people, it stands strong in the face of much larger countries that have tried to control it and subjugate its people. In the face of overwhelming odds, Albania stood firm, refusing to be subdued to others despite that dominant country remaining on its soil for centuries. Descendants from the ancient Illyrians, a relatively unknown group, together with an obscure language unlike any other in Europe, its people are a mystery and a conundrum in the face of larger and more powerful countries. The Ottoman Empire, for example, dominated Albania and the Balkans for five centuries, but were unable to subjugate these people. Albanian embers for independence were nurtured and kept alive until, in the end, it achieved its national aspirations. Its core identity remained unchanged and strong in the face of such challenge. Perhaps the most remarkable aspect of Albanian is the concept of besa, a term denoting a code of honor. Once given to another, whether an Albanian or a stranger, the Albanian would rather forfeit his life than violate this code and promise. It was due to this concept and code that Jews in Albania, were protected and every manner of succor was extended to them. Albania remains the only country in Nazi-occupied Europe when at the end of that world war there was an increase in its Jewish population rather than the reverse. The Nazis considered the Jewish population in Albania to be about 200 persons. In fact, by war's end, 2,000 people emerged, relating tales of the extraordinary courage and heroism extended to them by either Muslim or Christian Albanians. To date the State of Israel's Yad Vashem has recognized 75 Albanians for its prestigious award of Righteous Among the Nations. Ironically, the very same code of honor that protected Jews during World War Two is now used by Albanians to

perpetrate criminality across the world. The Albanian Mafia controls a vast international enterprise, overseeing every form of crime. At its basest element, the clannish hallmark of its membership is based on familial connections, with the code of besa given to its leadership and other members. Thereby, all in the clan are considered family for whom the code connects and protects, demanding total unquestioned obedience. Efforts to infiltrate these clans has proven an impossible task because of the interconnected webs of duty and control exerted on all in that organization. Betrayal of the clan is a violation of family and community so that total obedience is a given at all times. Hence, the same nobility of besa is also used negatively, against society and normative social frameworks. In addition, Albania still retains the cultural phenomenon of the 'third sex' where women become 'sworn virgins.' They are released from their traditional feminine role and become a 'man,' doing so by a formal oath given to twelve elders in the community. Afterwards, none may remind this 'man' of a previous life as a woman. Though the number of sworn virgins in Albania is small, it is still present and any woman may assume this transformation despite modernity and its claims of equality. The Albanian diet reflects its Mediterranean culture, using olive oil and an array of vegetables that provides an abundance of health to its people. There is much to learn from this ancient society. I hope this book does justice to the many traditions and culture of this unique people.

The Knight on the Bridge William Watson 1996 In a crumbling medieval castle stacked in unprosperous land in the South of France, the mad lord Caesar lives with his beautiful wife, the sex-starved but ever-hopeful Bonne, and a few cynical retainers. Caesar is lost in other lands, his madness holding the castle, even the dry landscape, in a state of unreality, until the arrival of the young killer, Amanieu, wakes this isolated household from its dreams. Extraordinary events ensue, from Bonne's battle with the bees to Caesar's joust against the German giant who seeks revenge on the murder of his brother. While man and wife soar to ever greater heights of illusion, their daughter Flore travels through myths of her own to a cheerful relinquishment of childhood and

an alliance with Amanieu.
