The Origin of Species Charles Darwin 1872

Australian Parrots in Colour Len Robinson 1970

**Australian Parrots in Bush and Aviary** Ian Harman 1981

**The Parrots of Australia** Alexander C. Hunt 1966

Australian Parrots - Their Habits in the Field and Aviary Neville W. Cayley 2011 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Victorian Naturalist 1926

Australian Parrots Joseph Michael Forshaw 2002

**The Food of Australian Birds** Robin Dale Barker 1989 This book lists the stomach contents of Australian non-passerine birds collected by the CSIRO Wildlife and Ecology from 1963 to 1980.

**The Emu** 1904

**Glimpses of Paradise** Penny Olsen 2007 The history of the Paradise Parrot - from its 'discovery' in the 1800s to its extinction in the 1920s and how claims of sightings have continued to the present day.

**John Gould's Extinct and Endangered Birds of Australia** Sue Taylor 2012 In 1838, John Gould, the 'father of Australian ornithology' visited Australia with the intention of gathering material for his great work on Australian birds. In the resulting publication, *The Birds of Australia: In Seven Volumes* (1848), and the accompanying *Supplement* (1869), Gould named, for the first time, no fewer than 32 Australian bird species. Gould's words about the Norfolk Island Kaka were prophetic-the last bird of its kind died in a cage in London in 1851. Since then, a number of other species illustrated in *The Birds of Australia* have become extinct and others are now facing extinction. *John Gould's Extinct and Endangered Birds of Australia* features 59 plates of birds from Gould's eight-volume work, birds that today are

threatened or that no longer exist. Featuring exquisite full-colour lithographs reproduced from the National Library of Australia's copy of *The Birds of Australia*, this book gives an insight into the history of each bird's European discovery, as well as its subsequent fortunes or misfortunes.

**Australian Parrots in Field and Aviary** Neville William Cayley 1973

The Birds of Australia Gregory Macalister Mathews 1925

**Zoological Record** 1920 "Zoological Record is published annually in separate sections. The first of these is *Comprehensive Zoology*, followed by sections recording a year's literature relating to a Phylum or Class of the Animal Kingdom. The final section contains the new genera and subgenera indexed in the volume." Each section of a volume lists the sections of that volume.

The Record of Zoological Literature 1920

A List of the Birds of Australia Gregory Macalister Mathews 1913 Strict application of law of priority and use of trinomials necessitated many changes in nomenclature; this list brings together those made up to 1913.

*The Atlas of Australian Birds* Margaret Blakers 1984

**Australian Parrots** Barry Hutchins 1985

*The Trade in Wildlife* Sara Oldfield 2014-10-14 Annotation. Regulation of the international trade in wildlife is failing: Why? How do we stop more and more plant and animal species from being endangered? Leading authorities in the field show why it is not working and what needs to be done. Essential reading for those working in the areas of trade, environment and conservation. The regulation of the trade in wildlife is failing: increasing numbers of plant and animal species are threatened with extinction despite improvements in our understanding and the management of global trade. Understanding why, and what to do about it, is urgently needed. This book provides a critical assessment of how the trade in wildlife is currently regulated and how those regulations are enforced. Through analysis of case studies and comparisons with the trade in other illegal goods, it shows what

the weaknesses are, where the system is failing and what must be done if conservation efforts are to be supported by trade regulations, and not undermined.
