Fundamentals of Financial Accounting Fred Phillips 2024

"In response to feedback and guidance from numerous financial accounting faculty, the authors have made many important changes in the eighth edition of Fundamentals of Financial Accounting, including the following: Integrated examples, stories, and problems involving real companies familiar to students (Alphabet, Apple, Domino's Pizza, Garmin, Meta, Sonos, Zumiez, and so on). Reviewed, updated, and introduced new end-of-chapter material in each chapter to support topics and learning objectives. Expanded the accounting equation graphic starting in Chapter 3 to distinguish temporary income statement accounts and to illustrate that they are closed later to Retained Earnings (RE). Expanded the number and type of auto-graded Data Analytics Exercises in Connect

to align with CPA Evolution Core learning objectives (data visualization, interpretation, analysis, and communication in Module 8, Topics 5 & 6). New Chapter Supplement 1A presents a framework for selecting appropriate data visualizations, and is supported by new You Be the Boss data visualization exercises relevant to all business majors"--
