Designing with Plastics P. R. Lewis 1993 In this report Dr Lewis surveys the current state of the art in designing with plastics, in terms of materials properties and processing technologies. He also considers the legal implications of intellectual property and product liability, as well as ergonomic and aesthetic design, parts consolidation and recyclability. His review is supported throughout by references to key processes and applications, including many well known consumer products, and further information can be derived from the 435 abstracts of published papers which complete

the report.
