The Giant Encyclopedia of Learning Center Activities

Kathy Charner 2005 This book

contains hundreds of accessible, teacher-written learning center activities. The GIANT Encyclopedia of Learning Center Activities is the eighth book in Gryphon House's GIANT Encyclopedia series. The learning centers in this book can either be permanent year-long centers or set up and removed according to the season or children's interests and needs. Through play, young children learn to communicate, interact, and expand their cognitive thinking

horizons. The GIANT Encyclopedia of Learning Center Activities provides the resources to make play meaningful and educational for young children. This book offers: Over 600 activities and 47 learning centers, including familiar, permanent centers, such as Art or Blocks, and new and exciting centers, such as Farm, Space, Safari, Shoe Store, and Ice Cream Shop. Opportunities in each center for children to work at their own developmental level. Materials lists for each activity, step-by-step instructions, and related books, songs, and poems. Fresh new ideas from teachers who have used these activities in their own classrooms!
