**Haydn -- The Complete Piano Sonatas, Vol 1** Maurice Hinson 1993-12 These three volumes, in practical urtext-pedagogical editions, are designed with the idea that these precious works will be performed on the modern piano. **Complete Piano Sonatas, Volume I**

**(Nos.1-15)** Ludwig van Beethoven 1770-03-16  
 The entire corpus of Beethoven's piano sonatas is contained in this two-volume work — 32 sonatas in all. Volume One contains the fifteen sonatas from Beethoven's first period, including the popular Pathétique, Moonlight, and Pastorale sonatas. Volume Two contains the 17 sonatas from Beethoven's second and third periods, including the Waldstein, the Appassionata, and the Hammerklavier. The music is reproduced directly from the exemplary Universal Edition set edited by Heinrich Schenker. Combining scrupulous scholarship and profound artistic vision, Schenker achieved an edition which is universally admired by musicians and scholars. He used more autographs as sources than any previous editor of the sonatas, and he was the first to reproduce in print the visual impression of the autographs. For this Dover edition, Schenker's footnotes have been translated into English and his preface translated. A new introduction by Carl

Schachter has also been included. Noteheads have been reproduced in a size large enough to be read easily at the keyboard. Margins and spaces between staves are generous, permitting insertion of written notes, analysis, fingerings, etc. Running measure numbers and many fingerings have already been included by the editor — the last a particularly unusual and valuable feature of this edition. This edition will be welcomed by all pianists, both professional and amateur, for its accuracy and reliability; it is highly desirable for instruction, study, reference, and enjoyment.

**The Well-Tempered Clavier** Johann Sebastian  
 Bach 2014-01-15 This edition of Volume I of  
 Bach's highly influential keyboard work features

Sir Donald Francis Tovey's classic analyses of 24 preludes and 24 fugues, including suggestions for performance. A scholarly reference by a world-famous musicologist and Bach expert, this legendary, long-out-of-print version also contains Harold Samuel's fingerings for all pieces.

**Piano Sonatas, Volume 1 (Nos. 1-8)** Ludwig van Beethoven wrote 32 sonatas for piano. Volume 1, edited by Stewart Gordon, includes the first 8 sonatas (Op. 2, Nos. 1-3; Op. 7; Op. 10, Nos. 1-3; and Op. 13 ["Pathétique"]), written between 1795 and 1799. Since these autographs no longer exist, this edition is based on the first editions, published by various Viennese engravers. Dr. Gordon discusses a variety of topics including Beethoven's life; the pianos of his time and their limitations; Beethoven's use of articulation, ornamentation, tempo; and the age-old challenge of attempting to determine the definitive interpretation of Beethoven's music. Valuable performance recommendations, helpful fingering suggestions

and ornament realizations are offered in this comprehensive critical body of Beethoven's sonatas. Where performance options are open to interpretation, other editors' conclusions are noted, enabling students and teachers to make informed performance decisions.
