Disagreement Jacques Rancière 1999 "Is there any such thing as political philosophy?" So begins this provocative book by one of the foremost figures in Continental thought. Here, Jacques Ranciere brings a new and highly useful set of terms to the vexed debate about political effectiveness in the face of a new world order. What precisely is at stake in the relationship between "philosophy" and the adjective "political"? In *Disagreement*, Ranciere explores the apparent contradiction between these terms and reveals the uneasy meaning of their union in the phrase "political philosophy" -- a juncture related to age-old attempts in philosophy to answer Plato's devaluing of politics as a "democratic egalitarian" process. According to Ranciere, the phrase also expresses the paradox of politics itself: the absence of a proper foundation. Politics, he argues, begins when the "demos" (the "excessive" or unrepresented part of society) seeks to disrupt the order of domination and distribution of goods "naturalized" by police and legal institutions. In addition, the notion of "equality" operates as a game of contestation that constantly substitutes litigation for political action and community. This game, Ranciere maintains, operates by a primary logic of "misunderstanding". In turn, political philosophy has always tried to substitute the "politics of truth" for the politics of appearances. *Disagreement* investigates the various transformations of this regime of "truth" and their effects on practical politics. Ranciere then distinguishes what we mean by "democracy" from the practices of a consensual system in order to unravel the ramifications of the fashionable phrase "the end of politics". His conclusions will be of interest to readers concerned with political questions from the broadest to the most specific and local.

Liberalism and Human Suffering Asma Abbas 2010-09-15 This book investigates the sources and implications of our encounters with suffering in contemporary politics and culture, exploring the forces that determine how suffering matters. It counters liberalism's distorting domestications of human suffering, which are most acute in its politics of redress through justice, the law, representation and inclusion. Radically rethinking the subjectivity of sufferers and arguing that our experience of the world is not prior to or outside of justice, but constitutive of it, the book recuperates a materialist politics that emphasizes sensuous activity, reclaims representation, and honors "the labor of suffering."

Politics on the Edges of Liberalism Benjamín Arditi 2007 Politics on the edges of liberalism refers to a grey zone where phenomena such as difference, populism, revolution and agitation turn the distinction between the inside and the outside of liberalism into a matter of dispute. Each chapter takes on one of these ideas, discussing the intellectual background animating the politics of the culture wars and its celebration of particularism over the universalism of classical liberal thought. Populism becomes a spectral recurrence rather than an outside of democracy. Agitation reappears in emancipatory politics, and the idea of revolution is thought through outside the Jacobin view of insurrection, overthrow and total re-foundation. This is truly interdisciplinary inquiry at the cutting edge of contemporary debates in politics, critical theory, philosophy and sociology. The author draws from an impressive range of thinkers such as Kant, Benjamin, Derrida, Freud, Schmitt, Rancière, Gramsci, Canovan, Oakeshott, Foucault, Vattimo, Laclau and

The Naked Communist: Cold War Modernism and the Politics of Popular Culture Roland Vegso 2013 Based on an analysis of American anti-Communist politics in the 1950s, the book presents parallel readings of modernism and popular fiction by concentrating on four recurrent figures (the world, the enemy, the secret, the catastrophe) in order to show that the two cultural fields participated in a common ideological program.

Lorenzo Milani's Culture of Peace C. Borg 2016-04-30 Researchers, activists, and educators draw inspiration from the radical thought of Lorenzo Milani to invite readers to explore the intricacies, logistics, ethics and pedagogy of conflict and peace as played out in a number of domains, including religion, education, gender, sexuality, democracy, art, sociology and philosophy.

Recognition or Disagreement Axel Honneth 2016-05-10 Axel Honneth is best known for his critique of modern society centered on a concept of recognition. Jacques Rancière has advanced an influential theory of modern politics based on disagreement. Underpinning their thought is a concern for the logics of exclusion and domination that structure contemporary societies. In a rare dialogue, these two philosophers explore the affinities and tensions between their perspectives to provoke new ideas for social and political change. Honneth sees modern society as a field in which the logic of recognition provides individuals with increasing possibilities for freedom and is a constant catalyst for transformation. Rancière sees the social as a policing order and the political as a force that must radically assert equality. Honneth claims Rancière's conception of the political lies outside of actual historical societies and involves a problematic desire for egalitarianism. Rancière argues that Honneth's theory of recognition relies on an overly substantial conception of identity and subjectivity. While impassioned, their exchange seeks to advance critical theory's political project by reconciling the rift between German and French post-Marxist traditions and proposing new frameworks for justice.

Piero Gobetti and the Politics of Liberal Revolution James Martin 2008-11-15 Piero Gobetti was an astonishing figure. A radical liberal and fierce critic of Italian politics in the years after World War I, he was fascinated by the workers' struggles in his native Turin and by Gramsci's vision of a factory-based democracy. Gobetti proposed liberalism as an emancipatory theory grounded in social conflicts. "Revolutionary liberalism," as he called it, guided his opposition to Fascism and, following his untimely death at twenty-five, inspired key figures in the Italian Resistance. Accessible but critical, this volume is the

first English-language study of Gobetti's political ideas and offers a balanced assessment of his enduring significance.

Why Race and Gender Still Matter Maeve M O'Donovan 2015-10-06 Intersectionality, the attempt to bring theories on race, gender, disability and sexuality together, has existed for decades as a theoretical framework. The essays in this volume explore how intersectionality can be applied to modern philosophy, as well as looking at other disciplines.

Distributions of the Sensible Scott Durham 2019-06-15 Jacques Rancière's work is increasingly central to several debates across the humanities. *Distributions of the Sensible* confronts a question at the heart of his thought: How should we conceive the relationship between the "politics of aesthetics" and the "aesthetics of politics"? Specifically, the book explores the implications of Rancière's rethinking of the relationship of aesthetic to political democracy from a wide range of critical perspectives. *Distributions of the Sensible* contains original essays by leading scholars on topics such as Rancière's relation to political theory, critical theory, philosophical aesthetics, and film. The book concludes with a new essay by Rancière himself that reconsiders the practice of theory between aesthetics and politics.

Resonances of Slavery in Race/Gender Relations Jane Flax 2010-11-15 In a provocative and insightful exposition, Jane Flax posits that Americans have never properly mourned slavery and its lingering effects on American subjects and politics. Using an interdisciplinary approach, the book shows that a reciprocal relationship exists between unconscious processes and race/gender domination and that unless we attend to these unconscious processes, no adequate remedy for the malignant consequences of our current race/gender practices and relations can be devised. Wide-ranging, Flax supports her arguments using a variety of sources, including psychoanalytic theory, feminist theory, political theory, Michel Foucault's writings, Obama's books and speeches, critical race theory, data on race/gender disparities, and analysis of contemporary films.
