Italian Custom Motorcycles Uli Cloesen 2022-03-23 Many books have been published about Italian motorcycles, but none has focused exclusively on the Italian motorcycle-based chopper, bobber, trike, and quad custom bike scene - until now. Even though customising is not normally associated with Italian brands, there are some fantastic individually-built Italian custom bikes out there, old and new. In recognition of the trend, Ducati entered into a new market segment when it launched its power cruiser Diavel in November 2010, while Moto Guzzi has its Aquila Nero range ... these and many other custom-style bikes have been well-received in the customs scene. This book looks at some of the fascinating custom projects around the world, accompanied by stunning photography of the finished bikes. A great book for Italian bike fans, and fans of the custom bike scene in general.

Pienza Charles R. Mack 1987 Pienza, a small hill town in north central Italy, represents one of the major architectural masterpieces of the Italian Renaissance. Starting in 1459, under the sponsorship of Pope Pius II, it was rebuilt into a model Renaissance cityscape. Because its physical state has changed only slightly since the fifteenth century, Pienza offers us a unique opportunity to see a variety of building traditions and theoretical positions combined in an almost perfectly preserved urban environment.
