**How to Get a Paper Published in Academic
Journals** Ganesh Jaganathan 2024-01-03 This
book provides complete coverage of the logical
thinking, the performance of experiments, and
the data analysis that is involved in the writing
of a paper, as well as the actual writing of it.
More specifically, it includes details about
improving writing and a step-by-step guide
illustrating the process of thinking, writing, and
polishing the paper regardless of major. Simple
examples are given to help understand the
complexity of writing and pinpoint what aspects
journals look for in papers. The last few chapters
include common mistakes and frequently
occurring problems in data analysis and writing
and how to rectify them. For students from
undergraduate to PhD levels and those new to
publishing a paper in international journals or
struggling to write one, the contents of this book
are invaluable. It is also beneficial to those
aiming to write and publish in English if it is not
their first language.
