Clarity and Coherence in Academic Writing David Nunan 2023-03-14 This book presents a lively, rich, and concise introduction to the key concepts and tools for developing clarity and coherence in academic writing. Well-known authors and linguists David Nunan and Julie Choi argue that becoming an accomplished writer is a career-long endeavor. They describe and provide examples of the linguistic procedures that writers can draw on to enhance clarity and coherence for the reader. Although the focus is on academic writing, these procedures are relevant for all writing. This resource makes complex concepts accessible to the emergent writer and illustrates how these concepts can be applied to their own writing. The authors share examples from a wide range of academic and non-academic sources, from their own work, and from the writing of their students. In-text projects and tasks invite you, the reader, to experiment with principles and ideas in developing your identity and voice as a writer.

[A Philosophical Approach to Perceptions of Academic Writing Practices in Higher Education](#) Amanda French 2022-05-12 This book takes a philosophical approach to the question 'what is academic writing?' and specifically explores the question of how academic writing and writing development can be better understood and developed by lecturers in higher education. It examines how a number of interconnected and interdisciplinary political, linguistic, discursive, ontological and epistemological frameworks can be used to inform a 'post-qualitative' approach for research into higher education academic writing practices, employing a Bourdusian/ Deluzean inspired approach. Using lecturers' own perceptions and experiences of academic writing, and treating them as part of a 'professional academic writing in higher education habitus', the book illustrates and analyses a number of ideas and concepts through a broadly post-qualitative paradigm. It also offers a number of innovative academic writing and writing development practices. Offering an in-depth discussion into how lecturers might better negotiate academic writing practices and use their own academic writing experiences to develop students' writing, this book will be highly relevant to academics, scholars and post-graduate students working in higher education.
