Validating Second Language Reading Examinations Rachel Yi-fen Wu 2014-09-25 "Validating Second Language Reading Examinations describes the development of an empirical framework for test validation and comparison of reading tests at different proficiency levels through a critical evaluation of alignment with the Common European Framework of Reference (CEFR). It focuses on contextual parameters, cognitive processing operations and test results and identifies parameters for the description of different levels of reading proficiency examinations. The volume explores procedures for linking tests to the CEFR and proposes both qualitative and quantitative methods that complement the procedures recommended in the Council of Europe's Relating Language Examinations to the Common European Framework of Reference for Languages (CEFR): A Manual, piloted in 2003 and revised 2009. Key features of the book include: - a detailed review of the literature on CEFR alignment, vertical scaling, test specifications and test comparability - a comprehensive and coherent approach to the validation of reading tests - an accessible and systematic description of procedures for collecting validity evidence based on a sound theoretical framework - a case study comparing different testing systems targeting the same CEFR level"--

Classroom-based Assessment in L2 Contexts Dina Tsagari

2016-06-22 This edited volume addresses issues that promote the notion of Classroom-based Language Assessment (CBLA) for the academic community and beyond. The book explores recent thinking and research on CBLA within the fields of language testing, assessment and general education based on theoretical and research papers presented at the recent CBLA SIG - EALTA Symposia held in Cyprus and the pre-conference EALTA workshops in various countries around Europe. The volume contains 17 chapters which involve both high-stakes tests and classroom-based assessments conducted by academics, professionals and researchers in the field. It brings together high-quality submissions that cover a gap in a research area that has long been in need of theoretical and empirical attention. Overall, this edited collection, with its international scope, offers a ground-breaking resource, bringing together in balanced relationship the fields of education and second language testing and assessment.

Measured Constructs Cyril J. Weir 2013-05-23 This volume establishes

how English language constructs were measured in Cambridge English examinations over the period 1913 to 2012. An addition to the Studies in Language Testing series, this volume provides an overview of English language testing over the last century, with coverage of key theoretical and practical aspects of the assessment of reading, listening, writing and speaking skills. It includes examples of the Cambridge English exams, old and new, and is the first volume to describe in a systematic way the different theoretical influences which have shaped the development of the constructs underlying Cambridge English exams in the last 100 years.

Plurilingualism María Pilar Díez Martínez 2012-12-31 The 2012 TESOL-SPAIN Convention held at the University of Deusto produced a number of relevant papers and presentations compiled in this book. The different papers deal with issues of concern for those teaching both English and in English, and show the progress made in this field to date. The authors are both national and international and their works tackle aspects such as motivation, new methodologies, new testing procedures and so forth.

FCE Practice Exam Papers 2 Virginia Evans 2009-01-01 The book provides systematic practice and development of students' reading, use of English and writing skills at intermediate and upper-intermediate level. The book offers excellent preparation for the revised Cambridge First Certificate Examination for December 2008, as well as any other examinations at the same level. Key Features: 10 Practice tests (Papers 1, 2 and 3) providing thorough preparation for the Reading, Writing and Use of English papers of the revised Cambridge First Certificate Examination; further practice on word distractors, key word transformation, words often confused, error correction, word formation, open cloze and multiple choice cloze; Teacher's Book provides a full key to the exercises in both the FCE Practice Exam Papers and the FCE Listening and Speaking Skills, as well as tapescripts of all the Listening sections in the Student's Books and suggested answers for the speaking tests.

Synergies of English for Specific Purposes and Language Learning Technologies Milorad Tošić 2017-06-23 Bilingualism and multilingualism

both make a major contribution in cross-cultural interaction, but, at the same time, improve various cognitive abilities, such as better attention and multitasking. Meaning in the world around us is represented by means of the language that is used for communication and knowledge exchange between intelligent individuals. The phenomena of human interaction and communication are recently experiencing unprecedented influence from digital technologies. Language learning is part of the global revolution, meaning that language learning technologies are playing an increasingly important role in learning English for Specific Purposes. This volume addresses theoretical and practical aspects of learning, technology adoption and pedagogy in the context of English for Specific Purposes.

Text Complexity and Reading Comprehension Tests Erik Castello 2008 Based on the analysis of a specially compiled corpus of internationally recognized English as a foreign language (EFL) reading tests at different levels of proficiency, this volume explores the relation between the complexity of written texts and the difficulty of reading comprehension tests. It brings together linguistic investigations into the text-inherent complexity of the tests and a study of the data derived from their administration to groups of Italian university students. The study of text complexity draws on corpus linguistics, text linguistics and systemic functional linguistics. Both quantitative and qualitative analyses are carried out on the language used in the reading texts and in the related tasks that make up the corpus of tests. The assessment of test difficulty, on the other hand, is informed by research on language testing, and, in particular, by findings and methodologies of Classical Test Theory and Item Response Theory. Relevant aspects of these theories are used to analyze and interpret both the data obtained from the administration of the tests and the data collected by means of feedback questionnaires completed by test takers. The application of such diverse methodologies and the subsequent comparison of the results of the analyses has

brought out interesting correlations between text-inherent complexity, perceived test difficulty and actual test difficulty.
