Document Retrieval Index 1976

Modern Criminal Procedure Livingston Hall 1969 "The Fifteenth Edition continues to include all the material required to master the essential issues that arise in both state and federal criminal cases. The book's comprehensive coverage of constitutional, statutory, and ethical rules regulating the criminal process has made it

one of the few textbooks that students over the years have opted to keep as a reference for their work as prosecutors, defense attorneys, and judicial clerks. The new edition also continues the custom of incorporating the most thoughtful and provocative commentary available. The authors bring together the latest statistics, relevant legislative trends, and insightful policy and scholarly debates, facilitating critical analysis of the process and its potential reforms. This unique and always up to date framing of the issues has made the book the nation's premier text for teaching criminal procedure year after year." --

Judicial Process in America Robert A. Carp 2015-12-30 Known for shedding light on the link among the courts, public policy, and the political environment, *Judicial Process in America* provides a comprehensive overview of the American judiciary. In this Tenth Edition, authors Robert A. Carp, Ronald Stidham,

Kenneth L. Manning, and Lisa M. Holmes examine the recent Supreme Court rulings on same-sex marriage and health care subsidies, the effect of three women justices on the Court's patterns of decision, and the policy-making role of state tribunals. Original data on the decision-making behavior of the Obama trial judges—which are unavailable anywhere else—ensure this text's position as a standard bearer in the field.

Comparative, International, and Global Justice Cyndi Banks 2015-09-23 *Comparative, International and Global Justice: Perspectives from Criminology and Criminal Justice* presents and critically assesses a wide range of topics

relevant to criminology, criminal justice and global justice. The text is divided into three parts: comparative criminal justice, international criminology, and transnational and global criminology. Within each field are located specific topics which the authors regard as contemporary and highly relevant and that will assist students in gaining a fuller appreciation of global justice issues. Authors Cyndi Banks and James Baker address these complex global issues using a scholarly but accessible approach, often using detailed case studies. The discussion of each topic is a comprehensive contextualized account that explains the social context in which law and crime exist and engages with questions of explanation or interpretation. The authors challenge students to gain knowledge of international and comparative criminal justice issues and think about them in a critical manner. It has become difficult to ignore the global and international dimensions of criminal justice and criminology and this text aims to enhance

criminal justice education by focusing on some of the issues engaging criminology worldwide, and to prepare students for a future where fields of study like transnational crime are unexceptional.

America's Courts and the Criminal Justice System David W. Neubauer 1999 By far the best-selling text in this market, AMERICA'S COURTS focuses on the dynamics of the court by introducing the concept of the "courtroom work group" and the relationship between the three main-actors judge, prosecutor, and defense attorney-thus illustrating the law in action, not just dry theory and facts.
