Colombian refugees in New Zealand and

their resettlement stories Alfredo Lopez

2019-06-21 Master's Thesis from the year 2018

in the subject Sociology - Politics, Majorities, Minorities, , course: Master of International Communication, language: English, abstract: This research focuses on Colombian refugees and their resettlement and integration stories in New Zealand. According to New Zealand Immigration, Colombian refugees have been arriving in the country since 2007. By the end of

July 2016, New Zealand had 809 Colombian refugees resettled from Ecuador where they were recognised as urban refugees by the Ecuadorian government. An urban refugee is a refugee who lives in an urban area rather than in a refugee camp. It is important to note that in Ecuador there are no refugee camps. Therefore, all refugees in Ecuador are considered as urban refugees. Thousands of Colombians have fled from Colombia to Ecuador because of the armed conflict that the country has faced for almost six decades. Once recognised as refugees in Ecuador, the United Nations High Commissioner for Refugees makes the recommendation or referral of some refugees to the New Zealand government, for them to be resettled in New Zealand. This research collected the experiences of 13 Colombian refugees in their process of resettlement and integration in New Zealand. The study used a qualitative methodological approach of an oral history methodology (ethnographic- a collection of oral stories). As

data collection methods, I have used oral history interviews, a focus group and participants' personal diaries.

Nanofiltration Membranes Lau Woei Jye 2016-12-19 Covering fabrication, characterization, and applications nanofiltration (NF) membranes, this book provides a comprehensive overview of the development of NF membrane technology over the past decade. It uniquely covers a variety of fabrication techniques, comparing the procedures of each technique to produce polymeric membranes of different morphologies. The book also discusses advances in the materials used in thin film composite (TFC) polyamide membrane fabrication and their influences on properties with respect to structural and separation characteristics. A comprehensive review on NF characterization methods and techniques is provided, assessing physical and chemical properties and separation characteristics and

stability. Technical challenges in fabricating a new generation of NF membranes are also reviewed and the possible approaches to overcome the challenges are provided. The book concludes with relevant case studies on the use of NF membranes in industrial implementation of both aqueous and nonaqueous media. Details the latest progress on the fabrication techniques of asymmetric and composite NF membranes. Discusses characterization methods used in assessing membrane physical/chemical properties, separation characteristics, and performance stability. Describes the potential of advanced materials in improving properties of polyamide selective layer as well as microporous substrate. Reviews the technical challenges in fabricating a new generation of composite membrane—thin film nanocomposite (TFN) membrane—possible approaches to overcome challenges. Offers case studies on the applications of NF membranes for both aqueous and nonaqueous media.

The Oxford Handbook of Organizational Socialization Connie R. Wanberg 2012-08-16

Thousands of employees begin new jobs each year. What can organizations and individuals do to jump start the process of learning and building connections? The Oxford Handbook of Organizational Socialization provides cutting edge reviews of the research and practice of organizational socialization as well as necessary future directions for this field.

[Handbook of Sharing Confidential Data](#) Jörg Drechsler 2024-10-09 Statistical agencies, research organizations, companies, and other

data stewards that seek to share data with the public face a challenging dilemma. They need to protect the privacy and confidentiality of data subjects and their attributes while providing data products that are useful for their intended purposes. In an age when information on data subjects is available from a wide range of data sources, as are the computational resources to obtain that information, this challenge is increasingly difficult. The Handbook of Sharing Confidential Data helps data stewards understand how tools from the data confidentiality literature—specifically, synthetic data, formal privacy, and secure computation—can be used to manage trade-offs in disclosure risk and data usefulness. Key features:

- Provides overviews of the potential and the limitations of synthetic data, differential privacy, and secure computation
- Offers an accessible review of methods for implementing differential privacy, both from methodological and practical perspectives
- Presents

perspectives from both computer science and statistical science for addressing data confidentiality and privacy • Describes genuine applications of synthetic data, formal privacy, and secure computation to help practitioners implement these approaches The handbook is accessible to both researchers and practitioners who work with confidential data. It requires familiarity with basic concepts from probability and data analysis.
