Critiques of Contemporary Rhetoric Karlyn

Kohrs Campbell 1997 This book covers criticism of the persuasion that surrounds us in daily life; speeches at political conventions, editorials in newspapers, essays in magazines of opinion, debates in Congress, state legislatures, and political campaigns, and all of the efforts by which protesters and reformers justify their views. The authors focus attention on responding intelligently to this rhetoric. They view rhetorical criticism not as a matter of being critical or of attacking rhetoric but rather, as the process of analysis, interpretation, and evaluation of persuasive uses of language.

[The Eight Universal Dimensions of Culture from a Synthesis of Cultural Taxonomies](#) Sophie Kunert 2022-08-29 The crucial element of this book constitutes the synthesis of cultural dimensions from existing cultural taxonomies, extended by the operationalization of the eight identified Universal Dimensions of Culture (UDCs) into a questionnaire. First, an extensive Systematic Literature Review (SLR) is pursued to identify the current state of research, demonstrating the research gap on a unified approach for classifying national cultures into cultural dimensions. Eight assumptions

displaying the eight UDCs are derived from the results of the SLR. Subsequently, an evaluation and selection framework for identifying the research base of comparable existing cultural taxonomies is developed. A research base of 11 cultural taxonomies and 50 cultural dimensions is retrieved. These serves as the basis for developing the eight UDCs, following a synthesis process and protocol. The eight UDCs are operationalized into a questionnaire, which is extensively pre-tested by experts and in the field. An example country study for Germany, Canada, and Brazil is conducted, and the corresponding country profiles for the eight UDCs are displayed.

Sociology in Everyday Life David Allen Karp 2004

Performing Early Christian Literature Kelly Iverson 2021-10-07 Scholars of early Christian literature acknowledge that oral traditions lie behind the New Testament gospels. While the concept of orality is widely accepted, it has not resulted in a corresponding effort to understand the reception of the gospels within their oral milieu. In this book, Kelly Iverson reconsiders the experiential context in which early Christian literature was received and interpreted. He argues that reading and performance are distinguishable media events, and, significantly, that they produce distinctive interpretive experiences for readers and audiences alike. Iverson marshals an array of methodological perspectives demonstrating how performance generates a unique experiential context that shapes and informs the interpretive process. Iverson's study explores the dynamic oral environment in which ancient audiences experienced the gospel stories. He shows why an understanding of oral performance has important implications for the study of the NT, as well as for several issues that are largely unquestioned by biblical scholars.

[Translating Cultures](#) David Katan 2021-06-17 This bestselling coursebook introduces current understanding about culture and provides a model for teaching culture to translators, interpreters and other mediators. The approach is interdisciplinary, with theory from Translation Studies and beyond, while authentic texts and translations illustrate intercultural issues and strategies adopted to overcome them. This new

(third) edition has been thoroughly revised to update scholarship and examples and now includes new languages such as Arabic, Chinese, German, Japanese, Russian and Spanish, and examples from interpreting settings. This edition revisits the chapters based on recent developments in scholarship in intercultural communication, cultural mediation, translation and interpreting. It aims to achieve a more balanced representation of written and spoken communication by giving more attention to interpreting than the previous editions, especially in interactional settings. Enriched with discussion of key recent scholarly contributions, each practical example has been revisited and/ or updated. Complemented with online resources, which may be used by both teachers and students, this is the ideal resource for all students of translation and interpreting, as well as any reader interested in communication across cultural divides.
