Solutions and Technologies for Responsible Digitalization Daniel Beverungen 2025-03-27 This book is the second volume of proceedings from the 18th International Conference on Wirtschaftsinformatik held in Paderborn, Germany, in 2023. In the context of the global trend toward digitalization, it presents the results of innovative, high-quality research in the field of information systems and digital transformation. The book covers a broad range of topics, including digital innovation, business analytics, artificial intelligence, and IT strategy, each of which has and will continue to have significant impacts on companies, individuals and societies alike.

Artificial Intelligence in Agriculture Alexander J. Udink ten Cate 1995 Paperback. The second IFAC/IFIP/Eur Ag Eng workshop on AI in agriculture provided a forum for the presentation of new research, development and applications of AI in agriculture. The workshop brought together leading researchers and practitioners (both academic and industrial) and enabled them to discuss and evaluate new and exciting bridges between AI and its applications in agriculture and domains connected to it (in particular, environmental sciences). This publication contains the papers, covering a wide range of topics, presented at the workshop.

Information Systems: Development, Research, Applications, Education

Stanislaw Wrycza 2016-09-21 This book constitutes the refereed proceedings of the SIGSAND/PLAIS EuroSymposium 2016 titled Information Systems: Development, Research, Applications, Education, held in Gdansk and Sopot, Poland, on September 29, 2016. The objective of this symposium is to promote and develop high-quality research on all issues related to systems analysis and design (SAND). It provides a forum for SAND researchers and practitioners in Europe and beyond to interact, collaborate, and develop their field. The 14 papers presented in this volume were carefully reviewed and selected from 34 submissions. They are organized in topical sections on information systems development, information systems management, and information systems learning.

Organizational Decision Support Systems Ronald M. Lee 1988 Decision Support Systems (DSS) are typically viewed as computerized aids for managerial decision making at the individual level. By contrast, this volume focuses on DSS for group and organizational decision making. The contributions are from academics and practitioners who are developing new concepts, techniques and software to support decision-related activities involving multiple participants. The book is in five sections. The first looks at the organizational setting of group decision support systems and experiences of various enterprises in their use. The second section is concerned with supporting negotiation processes, decision situations where the participants have conflicting goals. The third section deals with analysis and design issues in developing group/organizational DSS. Behavioral issues relating to the impact of the technology are examined in section four, while the fifth section discusses practical experiences with group decision rooms'.

Project Management for Drug Developers Joseph P. Stalder 2022-12-29 Project managers in drug development are the driving force behind the

coordination of efforts. This book provides a practical reference for project managers in the pharmaceutical and biotech drug development industry, with the goal of assisting in creating an efficient and effective team structure and environment. The text details the role of project managers at each stage of drug development, the key interfaces that the PM will need to work closely with, and essential tools of the trade including frequently used techniques and methodologies. This book is useful for both entry-level and advanced-level PMs, as well as non-project managers from other functions. Features Includes authors' recent experience with improved tactics and technologies/software at various stages of drug development. Provides the most up-to-date and best practices, techniques, and methodologies in project management. Details the role of the PM at each stage of drug development, including working with the key interfaces throughout the process. Diverse audience including nonproject managers in clinical development, clinical operations, regulatory affairs, medical affairs, clinical pharmacology, and biostatistics. Provides templates and timelines for critical paths from development to commercialization and has potential as a textbook on relevant courses.

The Proceedings of the ... Annual Health Care Information & Management Systems Conference 1998

Decision Support Systems and Intelligent Systems Efraim Turban 2005 Appropriate for all courses in Decision Support Systems (DSS), computerized decision making tools, and management support systems. Today's networked computer systems enable executives to use information in radically new ways, to make dramatically more effective decisions -- and make those decisions more rapidly. Decision Support Systems and Intelligent Systems, Seventh Edition is a comprehensive, up-to-date guide to today's revolutionary management support system technologies, and how they can be used for better decision making. In this thoroughly revised edition, the authors go far beyond traditional "decision support systems," focusing far more coverage on Web-enabled tools, performance analysis, knowledge management, and other recent innovations. The authors introduce each significant new technology,

show how it works, and offer practical guidance on integrating it into real-world organizations. Examples, products, services, and exercises are presented throughout, and the text has been revised for improved clarity and readability. New and enhanced coverage includes: state-of-the-art data mining, OLAP, expert system, and neural network software; revamped coverage of knowledge management; and a far greater emphasis on the use of Web technologies throughout. Also covered in detail: data warehousing, including access, analysis, visualization, modeling, and support. This edition also contains DSS In Action boxes presenting real business scenarios for the use of advanced management support technology. Decision Support Systems and Intelligent Systems, Seventh Edition is supported by a Web site containing additional readings, relevant links, and other supplements.

Decision Modelling and Information Systems Nikitas-Spiros Koutsoukis 2012-12-06 In Decision Modelling And Information Systems: The Information Value Chain the authors explain the interrelationships between the decision support, decision modelling, and information systems. The first two parts of the book focus on the interdisciplinary decision support framework, in which mathematical programming (optimization) is taken as the inference engine. The role of business analytics and its relationship with recent developments in organisational theory, decision modelling, information systems and information technology are considered in depth. Part three of the book includes a carefully chosen selection of invited contributions from internationally-known researchers. These contributions are thought-provoking and cover key decision modelling and information systems issues. The final part of the book covers contemporary developments in the related area of business intelligence considered within an organizational context. The topics cover computing delivered across the web, management decision-making, and socio-economic challenges that lie ahead. It is now well accepted that globalisation and the impact of digital economy are profound; and the role of e-business and the delivery of decision models (business analytics) across the net lead to a challenging business environment. In this dynamic setting, decision support is one of the few

interdisciplinary frameworks that can be rapidly adopted and deployed to so that businesses can survive and prosper by meeting these new challenges.

International Conference on Technology Advances for Green Solutions and Sustainable Development Brojo Kishore Mishra

2025-09-26 This book presents the proceedings of the International Conference on Technology Advances for Green Solutions and Sustainable Development (ICT4GS-2024) held from August 9–10, 2024, and organized by the Department of Computer Science and Engineering, NIST University, Berhampur - 761008, Odisha, India. The event provided a platform for researchers, professionals, and policymakers to exchange ideas and discuss recent innovations in green technologies and sustainable practices. The conference featured keynote speeches, paper presentations, and thematic discussions on topics such as renewable energy, IoT for environmental monitoring, and sustainable agriculture. ICT4GS-2024 was conducted in hybrid mode (both online and onsite), enabling global participation.

Loss Models: From Data to Decisions, 5e Student Solutions Manual

Stuart A. Klugman 2019-01-07 Loss Models: From Data to Decisions, Fifth Edition continues to supply actuaries with a practical approach to the key concepts and techniques needed on the job. With updated material and extensive examples, the book successfully provides the essential methods for using available data to construct models for the frequency and severity of future adverse outcomes. The book continues to equip readers with the tools needed for the construction and analysis of mathematical models that describe the process by which funds flow into and out of an insurance system. Focusing on the loss process, the authors explore key quantitative techniques including random variables, basic distributional quantities, and the recursive method, and discuss techniques for classifying and creating distributions. Parametric, non-parametric, and Bayesian estimation methods are thoroughly covered along with advice for choosing an appropriate model. Throughout the book, numerous examples showcase the real-world applications of the

presented concepts, with an emphasis on calculations and spreadsheet implementation. Loss Models: From Data to Decisions, Fifth Edition is an indispensable resource for students and aspiring actuaries who are preparing to take the SOA and CAS examinations. The book is also a valuable reference for professional actuaries, actuarial students, and anyone who works with loss and risk models.

DECISION SUPPORT SYSTEMS: THE INTERNATIONAL JOURNAL 1998

Data, Models, and Decisions Dimitris Bertsimas 2000 The book combines topics from two traditionally distinct quantitative subjects: probability/statistics and optimization models, into one unified treatment of quantitative methods and models for management and business. The book stresses those fundamental concepts that are most important for the practical analysis of management decisions: modeling and evaluating uncertainty explicitly, understanding the dynamic nature of decision-making, using historical data and limited information effectively, simulating complex systems, and allocating scarce resources optimally.
