Cold Water Fisheries in the Trans-
Himalayan Countries Food and Agriculture
Organization of the United Nations 2002-01-01
The trans-Himalayan region covers the countries
of the Himalayas, Karakoram and in Hindu Kush
and Pamir. Fisheries play an important role in
providing food and income to the mountain
people. This volume contains papers presented
at a meeting, held in July 2001 in Nepal, to
review information, experiences and findings
related to fish and fisheries in the region,
including fish species distribution, fishing
intensity, socio-economic conditions and
livelihoods of fisher communities, as well as to
the impacts of environment degradation,

conservation measures and aquaculture technologies on indigenous and exotic cold water fish.

Simple Methods for Aquaculture Management for Freshwater Fish Culture, Fish Stocks, and Farm Management A. G. Coche 1998-01-01 This manual deals in two volumes with the practical aspects of management related to freshwater fish culture in earthen ponds. The first volume (FAO Training Series No. 21/1, 1996, ISBN 92-5-102873-7, US\$51.00) explains how to manage the pond itself. This second volume deals with how to manage fish stocks and, as a whole, a fish farm. Fish handling, propagation, feeding, harvesting, grading and storage are explained in simple terms, as well as the prevention and treatment of simple fish diseases and the monitoring of fish farm activities.
