Names in Times of Crisis Paola Cotticelli-Kurras 2025-08-11 This volume addresses the fields of naming and branding, in particular company and brand names, names in slogans, and advertising language in general, and all other proper names that are of economic interest in times of crisis. The contributions analyze both advertising on social media as well as printed material concerning commercial names, slogans for climate advertising, pandemic situations, new branding, and communication strategies in critical times, such as war and energetic decency. The focus of the volume lies in stimulating reflections on how communication with consumers has changed, on current advertising and marketing strategies, and on naming in the face of sustainability and fairness. The current war scenario and the resulting problems concerning energy supplies, the increased migration in the Western European nations, and the political and social pressure to implement ambitious climate goals lead the economy and advertising agencies to profound reconsiderations.

Literary Research Guide James L. Harner 2008 James L. Harner's Literary Research Guide, which Choice calls "the standard guide in the field," evaluates important reference materials in English studies. Since the publication of the first edition in 1989, tens of thousands of students and educators have used the Guide as an aid to scholarly research. In the new edition Harner has added entries describing resources published since May 2001 and has revised nearly half the entries from the fourth

edition. The fifth edition contains more than 1,000 entries, which discuss an additional 1,555 books, articles, and electronic resources and cite 723 reviews. Readers of earlier editions will notice the inclusion of substantially more electronic resources, particularly reliable sites sponsored by academic institutions and learned societies, to account for the proliferation of bibliographic databases, text archives, and other online resources. This edition also features a new section on cultural studies.
