**Laboratory Manual of Pharmaceutical Chemistry** Dr. Remeth J. Dias 2023-09-28 We are very pleased to put forth the revised edition of 'Laboratory Manual of Pharmaceutical chemistry'. We have incorporated all the suggestions, modified it to make it easier, student friendly and relevant in terms of achieving curriculum outcome. We are very much thankful to all the learned teachers who have given their feedback wholeheartedly. We have even incorporated the changes in this manual based on the feedback given by the teachers from all the institutes. Now, we believe that the manual has been fulfilling the aspirations of Pharmacotherapeutics' teachers and students too. This manual is prepared as per PCI Education Regulations, 2020 for Diploma Course in Pharmacy. The methods of all the experiments are reviewed and added from the recent research papers, so that the advancement in the methods or apparatus can be addressed. This manual is designed for 'outcome-based education' and each experiment is arranged in a uniform way such as practical significance, practical outcomes (PrOs) and its mapping with course outcomes, minimum theoretical background, resources used, procedure, precautions, observations, result, conclusion, references, and related questions. Moreover, assessment scheme is also given to help the student and teacher to know what to be assessed. Each experiment offers an opportunity to perform practical work, allowing students to gain proficiency in effectively managing equipment, handling glassware, chemicals and reagents, and writing analytical reports. In addition, questions are provided at the end of the experiments to enhance students' knowledge, which will be beneficial for them as they pursue higher studies. We hope that this manual will assist students in understanding concepts, principles, and performing procedures. We wish you all the best!"
