Planetfall Emma Newman  
2015-11-03 From the Hugo  
Award-winning author of  
*Between Two Thorns* comes  
the first novel in a captivating  
science fiction series where a  
secret withheld to protect  
humanity's future may lead to  
its undoing... "Cathartic and  
transcendent."—The New York  
Times "An exceptionally  
engaging novel that explores  
the complex relationship  
between mythology and  
science."—The Washington  
Post Renata Ghali believed in  
Lee Suh-Mi's vision of a world  
far beyond Earth, calling to  
humanity. A planet promising  
to reveal the truth about our  
place in the cosmos, untainted  
by overpopulation, pollution,  
and war. Ren believed in that  
vision enough to give up  
everything to follow Suh-Mi  
into the unknown. More than  
twenty-two years have passed  
since Ren and the rest of the  
faithful braved the starry abyss

and established a colony at the  
base of an enigmatic alien  
structure where Suh-Mi has  
since resided, alone. All that  
time, Ren has worked hard as  
the colony's 3-D printer  
engineer, creating the tools  
necessary for human survival  
in an alien environment, and  
harboring a devastating secret.  
Ren continues to perpetuate  
the lie forming the foundation  
of the colony for the good of  
her fellow colonists, despite the  
personal cost. Then a stranger  
appears, far too young to have  
been part of the first planetfall,  
a man who bears a remarkable  
resemblance to Suh-Mi. The  
truth Ren has concealed since  
planetfall can no longer be  
hidden. And its revelation  
might tear the colony apart...  
*Emperor* Stephen Baxter  
2007-01-02 The first novel in  
Stephen Baxter's acclaimed  
Time's Tapestry series. "EPIC  
HISTORICAL FICTION laced  
with a science fiction  
premise...a vividly convincing

picture of a past world.”—SFX  
It is The Prophecy. Inscribed in Latin, the ancient scroll has resided in the hands of a single family for generations, revealing secrets about the world that is to come, and guiding them to wealth and power. It begins when a Celtic noble betrays his people at the behest of his mother’s belief in The Prophecy—and sides with the conquering Roman legions. For the next 400 years, Britannia thrives, as does the family while Rome rules over the island. But loyalties are torn when Constantine, most powerful Emperor of them all, comes to Britannia. And even as the sun begins to set on the Roman Empire, the Prophecy is renewed—a message from an unknowable future promising the world to those who can decipher its cryptic words...

Fantascienza - rivista (43 pagine) - Nel numero 219 di Delos Science Fiction uno speciale su Tenet, il nuovo film di Christopher Nolan. Con Tenet, il nuovo film di

Christopher Nolan l'industria cinematografica è simbolicamente ripartita dopo l'emergenza del covid19 e come sempre un film del regista britannico è un evento. Un film tanto atteso quanto enigmatico, che come per altre pellicole di Nolan è sempre foriero di discussioni e di prese di posizioni nette: o lo si elogia o lo si disprezza. A Tenet è dedicato lo speciale del numero 219 di Delos Science Fiction, che potete leggere come sempre gratuitamente. Oltre ad un articolo sul film , senza spoiler, e un altro sul protagonista, l'attore John David Washington, figlio di Denzel, il pezzo che vi inviamo a leggere è quello di Roberto Paura che spiega il film dal punto di vista della fisica. Nei servizi trovate un'intervista di Giampietro Stocco al pittore, fotografo e scrittore Marco Settembre, che si occupa di temi distopici nella sua poliedrica attività di artista, mentre Vincenzo Graziano ci introduce ad un fumetto fantascientifico molto interessante: Outer Darkness.

Nella sezione rubriche vi segnaliamo l'articolo di Giuseppe Vatinno sui film di fantascienza degli anni Cinquanta a tema viaggi spaziali e l'uscita in ebook di un classico della science fiction nella rubrica social & digital. Il racconto di questo mese è di Giancarlo Manfredi. Rivista fondata da Silvio Sosio e diretta da Carmine Treanni. *Y mañana serán clones* John Varley 2014-05-30 La humanidad ha sido expulsada de la Tierra por los invasores, unos alienígenas de inteligencia inmensamente superior. Delfines y ballenas pueblan ahora el planeta y el género humano se ha visto obligado a repartirse por el Sistema Solar. Los colonos de Plutón interceptan una transmisión: un flujo de información que facilita el desarrollo de nuevas tecnologías procedentes de la estrella 70 Ophiuchi. Una consecuencia del uso de esos datos es el perfeccionamiento de la clonación humana. Un político de Luna quiere utilizar esa posibilidad para cumplir

con sus pretensiones de recuperar la Tierra, pero se encuentra con la oposición de Lilo, una genetista que no está dispuesta a ceder su cuerpo multiplicado al servicio de una guerra.

Doctor Who: the Wheel of Ice

Stephen Baxter 2013 The Wheel. A ring of ice and steel around a moon of Saturn, and home to a mining colony supplying Earth. It's a bad place to grow up. The colony has been plagued by problems and there are stories of mysterious creatures glimpsed aboard the Wheel. Many of the younger workers refuse to go down the warren-like mines anymore. And then young Phee Laws, surfing Saturn's rings, saves an enigmatic blue box from destruction. Aboard the Wheel, the Doctor, Jamie and Zoe find themselves caught in a mystery that goes right back to the creation of the solar system. A mystery that could kill them all.

combined talents of the UK's bestselling novelist and a giant of British science fiction comes the dazzling new chapter in the extraordinary and bestselling The Long Earth sequence. 2040-2045: In the years after the cataclysmic Yellowstone eruption there is massive economic dislocation as populations flee Datum Earth to myriad Long Earth worlds. Sally, Joshua, and Lobsang are all involved in this perilous work when, out of the blue, Sally is contacted by her long-vanished father and inventor of the original Stepper device, Willis Linsay. He tells her he is planning a fantastic voyage across the Long Mars and wants her to accompany him. But Sally soon learns that Willis has an ulterior motive for his request: he needs her help to trace an advanced alien technology which, he believes, will help mankind's post-Yellowstone recovery. Meanwhile U. S. Navy Commander Maggie Kauffman has embarked on an incredible journey of her own, leading an expedition to the outer limits of

the far Long Earth. For Joshua, the crisis he faces is much closer to home. He becomes embroiled in the plight of the Next: the super-bright post-humans who are beginning to emerge from their 'long childhood' in the community called Happy Landings, located deep in the Long Earth. Ignorance and fear have caused 'normal' human society to turn against the Next, and the authorities, afraid of anything or anyone not deemed 'normal', order that all Next children be imprisoned. Joshua is determined to liberate the children -- and a dramatic showdown over the inhumanity of humans against their own kind seems inevitable.

between life and art. Now, in The Year's Best Science Fiction: Thirty-Second Annual Collection the very best SF authors explore ideas of a new world. This venerable collection brings together award winning authors and masters of the field such as Robert Reed, Alastair Reynolds, Damien Broderick, Elizabeth Bear, Paul McAuley and John Barnes. And with an extensive recommended reading guide and a summation of the year in science fiction, this annual compilation has become the definitive must-read anthology for all science fiction fans and readers interested in breaking into the genre.

**Weaver** Stephen Baxter  
2008-07-01 The concluding volume of the acclaimed Time's Tapestry series. "This is the climax of one of the most thoughtful and involving series of novels that have brought history alive like no other."—Fantastic Fiction It is a war that has been fought throughout the centuries—the fate of Rome, the fate of

Christendom, the fate of the young country called America—all were at stake down through the ages. Now, in the early days of WWII, as Germany launches a successful invasion of England, nothing less than the fate of the 20th century is to be determined. For the Nazi's have a secret plan, far grander than simply subjugating an enemy. In the middle of that plan, tangled up in the strands of history, are Mary Wooler, an American historian caught in the Blitz; her son Gary, fighting a ruthless invader at civilization's frontier; and Ben Kaman, a Jewish refugee whose dreams place him at the heart of the conspiracy that is threatening the fabric of the tapestry of time...

**The Long Cosmos** Terry Pratchett 2017-05-18

novel, we find an answer. 2070-71. Nearly six decades after Step Day and in the Long Earth, the new Next post-human society continues to evolve. For Joshua Valiente, now in his late sixties, it is time to take one last solo journey into the High Meggers: an adventure that turns into a disaster. Alone and facing death, his only hope of salvation lies with a group of trolls. But as Joshua confronts his mortality, the Long Earth receives a signal from the stars. A signal that is picked up by radio astronomers but also in more abstract ways -- by the trolls and by the Great Traversers. Its message is simple but its implications are enormous: JOIN US. The super-smart Next realise that the Message contains instructions on how to develop an immense artificial intelligence but to build it they have to seek help from throughout the industrious worlds of mankind. Bit by bit, byte by byte, they assemble a computer the size of a continent -- a device that will alter the Long Earth's

place within the cosmos and reveal the ultimate, life-affirming goal of those who sent the Message. Its impact will be felt by and resonate with all -- mankind and other species, young and old, communities and individuals -- who inhabit the Long Earths. Disciple of the Wind Steve Bein 2016-03-01 Tokyo's only female detective fights to keep her city safe in the third novel in the fantasy series that "combines the best parts of police procedurals, buddy-cop films, historical fantasy, and intrigue-laden adventure."\* After a deadly terrorist attack in Tokyo, Detective Sergeant Mariko Oshiro urges her commanding officers to arrest an insane zealot who was just released from police custody. When her pleas fall on deaf ears, she loses her temper and then her badge. Armed with only her cunning and her famed Inazuma blade, Mariko must work outside the system to stop the terrorist. But going rogue draws the attention of the Wind—an underground syndicate that has controlled

Japanese politics for centuries, using mystical relics to achieve their nefarious ends. Now, Mariko is left with a perilous choice: join an illicit insurgency to thwart a deadly villain, or remain true to the law. Either way, she cannot escape her sword's curse. As sure as the blade will bring her to victory, it also promises to destroy her...

2008-01-02 The third novel in Stephen Baxter's Time's Tapestry series. "We've come to expect excellence from Stephen Baxter and that's what we get it in Navigator."—SciFiDimensions  
As William the Conqueror's men attempt to stamp out the flames of rebellion, a prophecy is uttered. A bedraggled woman in a ruined chapel speaks of civilizations in conflict, armed by the engines of God... And that prophecy proves to be true as the fearsome war between Christianity and Islam leaves its mark across the land. In Spain, a rogue priest dreams of the final defeat of Islam, for he

has found a rent in the tapestry of time, a point where agents from the future used diabolical weapons of destruction to change history. Centuries later, in 1492, as men of vision weary of the strife and are drawn to the unknown West, one such explorer seeks the funding for his voyage—while a mysterious Weaver plots to unravel the strands of time and stop him...

echoing Baxter's work with Terry Pratchett on the LONG EARTH series. Confirms Stephen Baxter's place as one of the greatest practitioners of the SF short story.

*The Long Utopia* Terry Pratchett 2015-07-28 Human society continues to evolve on Datum Earth, its battered and weary origin planet, as the spread of humanity progresses throughout the many Earths beyond. Lobsang, now an elderly and complex AI, suffers a breakdown and, disguised as a human, attempts to live a "normal" life on one of the millions of Long Earth worlds. His old friend Joshua, now in his fifties, searches for his father and discovers a heretofore unknown family history.

optical. *Infrared Astronomy - Seeing the Heat*: from William Herschel to the Herschel Space Observatory explores the work in astronomy that relies on observations in the infrared. Author David L. Clements, a distinguished academic and science fiction writer, delves into how the universe works, from the planets in our own Solar System to the universe as a whole. The book first presents the major telescopes in the world of observational infrared astronomy, explains how infrared light is detected through various kinds of telescopes, and describes practical problems that send infrared astronomers to the tops of mountains and their telescopes into orbit and beyond. Much of the book focuses on what infrared astronomers find in their observations. You'll discover what infrared astronomy reveals about the planets, moons, and other bodies that constitute our Solar System; star formation and stellar evolution; the processes that shape galaxies; and dark

energy and dark matter. Infrared astronomy has revolutionized our understanding of the universe and has become essential in studying cosmology. Accessible to amateur astronomers, this book presents an overview of the science and technology associated with infrared astronomy. With color figures, it shows you how infrared astronomy provides insights into the workings of the universe that are unavailable at other wavelengths.

**Conqueror** Stephen Baxter 2007-08-07 The second novel in Stephen Baxter's Time's Tapestry series. Inscribed in Latin, the ancient scroll known as The Prophecy has remained in the hands of a single family for generations, revealing secrets about the world to come, and guiding them to wealth and power... Three centuries have passed since Rome fell, as foretold by The Prophecy—which is now in the hands of a young girl who lives disguised as a boy among the monks on the isle of Lindisfarne. When the Vikings

come, deliberately destroying the final copies of the scroll, it will still live on—in the memory of one family. And when William of Normandy, whom history will call the Conqueror, rises to power, once more the fate of the land rests on actions inspired by the ancient words. But as time passes, memories dim—and the surviving member of the family struggles to understand his heritage before all knowledge of the future will be lost to the past...

**The Massacre of Mankind**

Stephen Baxter 2018-08-14 A sequel to the H.G. Wells classic THE WAR OF THE WORLDS, brilliantly realized by award-winning SF author and Wells expert Stephen Baxter It has been fourteen years since the Martian invasion. Humanity has moved on, always watching the skies but confident that we know how to defeat the alien menace. The Martians are vulnerable to Earth germs. The army is prepared. Our technology has taken great leaps forward, thanks to machinery looted from abandoned war-machines and

capsules. So when the signs of launches on Mars are seen, there seems little reason to worry. Unless you listen to one man, Walter Jenkins, the narrator of Wells' book. He is sure that the first incursion was merely a scouting mission, a precursor to the true attack—and that the Martians have learned from their defeat, adapted their methods, and now pose a greater threat than ever before. He is right. Thrust into the chaos of a new worldwide invasion, journalist Julie Elphinstone—sister in law to Walter Jenkins—struggles to survive the war, report on it, and plan a desperate effort that will be humanity's last chance at survival. Because the massacre of mankind has begun. Echoing the style and form of the original while extrapolating from its events in ingenious, unexpected fashion again and again, *The Massacre of Mankind* is a labor of love from one of the genre's most praised talents—at once a truly fitting tribute to a classic and brainy, page-turning fun for any science-fiction fan.

**The Long War** Terry Pratchett  
2014 A generation after the events of *The Long Earth*, mankind has spread across the new worlds opened up by *Stepping*. Where Joshua and Lobsang once pioneered, now fleets of airships link the stepwise Americas with trade and culture. Mankind is shaping the Long Earth - but in turn the Long Earth is shaping mankind ... A new 'America', called Valhalla, is emerging more than a million steps from Datum Earth, with core American values restated in the plentiful environment of the Long Earth - and Valhalla is growing restless under the control of the Datum government... Meanwhile the Long Earth is suffused by the song of the trolls, graceful hive-mind humanoids. But the trolls are beginning to react to humanity's thoughtless exploitation ... Joshua, now a married man, is summoned by Lobsang to deal with a gathering multiple crisis that threatens to plunge the Long Earth into a war unlike any mankind has waged before.
