Policies and Practice in Language Learning and Teaching Sabine Doff 2025-10-01 This book brings together studies from Georgia, Germany, Italy, Japan, New Zealand, Poland, South Korea, and the UK which explore links between policy and practice in language teaching in the twentieth century. The 14 contributions set out to expand the remit of 'grounded history' within the field of History of Language Learning and Teaching (HoLLT) by focusing on language teaching policies and linking these to practices and to contexts, situating policy formulation in particular contexts on the one hand, and exploring the relationship between policy and practice on the other. In this sense, the book shows how the theories, policy pronouncements, curricula, textbooks, and overall teaching

approaches which tend to feature in most histories of language teaching always emerge from particular, researchable contexts, and, in the other direction, are interpreted and responded to in practice, again, in particular contexts. In this way, it hopes to contribute a context-based perspective that highlights diversity of practices, in opposition to received views that language teaching methodology is 'universal' and context-free.

THE BEST BOOK OF TOEFL PREPARATION

Digital Forensics and Cyber Crime Sanjay Goel 2010-01-13 The First International Conference on Digital Forensics and Cyber Crime (ICDF2C) was held in Albany from September 30 to October 2, 2009. The field of digital forensics is growing rapidly with implications for several fields including law enforcement, network security, disaster recovery and accounting. This is a multidisciplinary area that requires expertise in several areas including, law, computer science, finance, networking, data mining, and criminal justice. This conference brought together practitioners and researchers from diverse fields providing opportunities for business and intellectual engagement among attendees. All the conference sessions were very well attended with vigorous discussions and strong audience interest. The conference featured an excellent

program comprising high-quality paper presentations and invited speakers from all around the world. The first day featured a plenary session including George Philip, President of University at Albany, Harry Corbit, Superintendent of New York State Police, and William Pelgrin, Director of New York State Office of Cyber Security and Critical Infrastructure Coordination. An outstanding keynote was provided by Miklos Vasarhelyi on continuous auditing. This was followed by two parallel sessions on accounting fraud /financial crime, and multimedia and handheld forensics. The second day of the conference featured a mesmerizing keynote talk by Nitesh Dhanjani from Ernst and Young that focused on psychological profiling based on open source intelligence from social network analysis. The third day of the conference featured both basic and advanced tutorials on open source forensics.
