Stardust John Gribbin 2000 Life begins with the process of star formation. Except for hydrogen, every single atom of every single element in our bodies has been manufactured inside stars and then scattered across the universe in great stellar explosions known as supernovas, only then to be recycled as part of us. The hydrogen is primordial material, produced in the Big Bang, but everything else has been built up in the burning hearts of stars. We are made of stardust.

Ilan Eshkeri's Stardust Ian Sapiro 2013-07-16 Based on Neil Gaiman's novel of the same name, Stardust (2007) was an instant hit with fans of fantasy and science-fiction. The film follows the adventures of a young man who crosses through a gap in a wall which separates England from a magical kingdom. The fantastical atmosphere required by the narrative is maintained by the scale and grandeur of much of the musical score,

written by rising British composer Ilan Eshkeri. Trained in the craft by composers Michael Kamen, Ed Shearmur, and Hans Zimmer, Eshkeri more than lived up to the task of producing music for one of his first feature films. In Ilan Eshkeri's Stardust: A Film Score Guide, Ian Sapiro carefully examines both Eshkeri's music for the film and the working habits of the composer himself. An introduction to Eshkeri establishes the context within which he developed as a film-score composer, followed by an analysis of his musical style and his scoring strategies, particularly for the film Stardust. Eshkeri's collaborative partnerships with music producer Steve McLaughlin, contractor/conductor Andy Brown, orchestrator Robert Elhai, and copyist Vic Fraser are also discussed, in addition to Eshkeri's relationship with Stardust director Matthew Vaughn. Eshkeri's involvement in the musical identity of the film during the production phase is also evaluated, as are developments in the score in the context of a new conceptual model of film-score production in the UK. With complete cooperation from Eshkeri, who provided the author privileged access to primary materials, Sapiro presents a unique look into the art of film scoring. The first detailed investigation of this composer and his music, Ilan Eshkeri's Stardust: A Film Score Guide is sure to be of interest to film and music scholars and fans.

Stardust International Raceway Randall Cannon 2018-10-08

Professional motorsports came to Las Vegas in the mid-1950s at a bankrupt horse track swarmed by gamblers--and soon became enmeshed with the government and organized crime. By 1965, the Vegas racing game moved from makeshift facilities to Stardust International Raceway, constructed with real grandstands, sanitary facilities and air-conditioned timing towers. Stardust would host the biggest racing names of the era--Mario Andretti, Parnelli Jones, John Surtees, Mark Donohue, Bobby Unser, Dan Gurney and Don Garlits among them. Established by a notorious racketeer, the track stood at the confluence of shadowy elements--wiretaps, casino skimming, Howard Hughes, and the beginnings of Watergate. The author traces the Stardust's colorful

history through the auto racing monthlies, national newspapers, extensive interviews and the files of the FBI.
