**English Learners' Access to Postsecondary Education** Yasuko Kanno 2021-09-09 Why does a public high school, despite having resources and educators with good intentions, end up graduating English learners (ELs) without preparing them for college and career? This book answers this question through a longitudinal ethnographic case study of a diverse high school in Pennsylvania. The author takes the reader on a journey with seven EL students through their last two years of high school, exploring how and why none of them reached the postsecondary destinations they originally aspired to. This book provides a sobering look into the systemic undereducation of high school ELs and the role of high schools in limiting their postsecondary options.

**Splintered** Jonathan Butcher 2022-03-22 The problem with our nation's schools today is not just the low test scores in basic reading and math—which are an obstacle for the economy, not to mention students' futures. The challenge is that K-12 instruction has been hijacked by Critical Theorists who are “skeptical” of representative government and the freedoms we cherish. The debates over the retelling of America's past, on display in local school board meetings as well as conflicts between the New York Times' 1619 Project and President Donald Trump's 1776 Commission, involve not just historical facts, but how Americans define their nation. This battle over our national identity is a cultural battle, involving schools—cultural institutions—and the ideas we all need to share to get along with our neighbors, raise families, and pursue the American Dream. “Jonathan Butcher is one of our sharpest and most insightful analysts writing about education today. The nation owes him a debt of gratitude for work demystifying an obscure academic field, critical race theory, and fearlessly following where it leads when imposed on our public schools: abandoning the cherished belief that education can be a means of uniting our diverse country and replacing it with a pedagogy of grievance and despair.” —Robert Pondiscio, Senior Fellow, American Enterprise Institute and author of *How the Other Half Learns* “Jonathan Butcher's timely book on critical race theory addresses what I have described as the civil rights issue of our times. Too few Americans understand how this dangerous ideology and how it has seeped down into our K-12 educational system. Butcher's book is part of a collective effort to educate the American people about the infiltration and indoctrination of our educational system.” —Dr. Carol M. Swain, a former tenured professor at Vanderbilt and Princeton Universities
