Drawing from Life James McMullan 1994-08 This book encourages art students to draw the entire human figure at once, rather than isolated portions of the body. The approach focuses on the energy that suffuses every part of the body and produces lively, seamless figure drawings without construction lines. Examples from Master works and student works are used to demonstrate the approach that is presented in five chapters: (1) "What is Real in Realistic"; (2) "What Lines Can Do"; (3) "Drawing the Model"; (4) "Student Progress"; and (5) "Enjoy Yourself."
