Abortion Ian Shapiro 2001-01-01 Includes the US Supreme Court cases on abortion. This book presents court cases in edited form for use in the undergraduate and graduate classroom in a variety of disciplines. It provides an introduction to elucidate the complexities of this controversial issue.

Democratic Elitism Natasha Piano 2025-04-01 Natasha Piano argues that the Italian School of Elitism—comprising Pareto, Mosca, and Michels—has been consistently misread. These thinkers did not, as alleged, oppose electoral politics. Rather, they saw elections as just one component of democracy and warned that equating the two leaves publics disillusioned and vulnerable to elite capture.

The New York Times Book Review 1989-10 Presents extended reviews of noteworthy books, short reviews, essays and articles on topics and trends in publishing, literature, culture and the arts. Includes lists of best sellers (hardcover and paperback).

Demokratiemessung Hans-Joachim Lauth 2000-09-28 Der Bedarf an der Demokratiemessung ist in der vergleichenden Politikwissenschaft in den letzten Jahren merklich gestiegen. Doch zugleich wurde in vielen demokratietheoretischen Debatten der Aspekt der Operationalisierung der vorgeschlagenen Demokratiemodelle zu stark vernachlässigt. Weder wurde stets eine empirische Überprüfung angestrebt, noch konnte die allgemeine Frage: "Wie demokratisch ist ein bestimmtes politisches System?" angemessen behandelt werden. Die rasch wachsende Zahl von verschiedenen Konzepten zur Demokratiemessung bedarf ihrerseits einer tieferen theoretischen und methodischen Reflexion: Welches Demokratieverständnis wird zugrunde gelegt; wie erfolgt die Operationalisierung und Messung; welches sind die empirischen Befunde und wie valide sind die Ergebnisse? Die Beiträge dieses Bandes möchten

diese Fragen beantworten und präsentieren darüber hinaus eigene Vorschläge zu einer differenzierenden Weiterentwicklung der Demokratiemessung.

The Real World of Democratic Theory Ian Shapiro 2011 "Sequel and complement to an earlier volume, Democracy's Place, which was first published in 1996."

Inspire and be inspired 2018-01-01 Without any doubt research is the driving force behind development and professionalization, and a major reason why supervisors and coaches see it as the basis of their practices, enhancing its credibility, reliability and legitimacy. Not surprisingly, this reflects what they professionally pursue with their clientele: to serve the development of individuals, teams and organizations; inspire them to optimise their potential and enhance their professional and personal growth.

Democracy and Its Critics Robert Alan Dahl 1989-01-01 In this prize-winning book, one of the most prominent political theorists of our time makes a major statement about what democracy is and why it is important. Robert Dahl examines the most basic assumptions of democratic theory, tests them against the questions raised by its critics, and recasts the theory of democracy into a new and coherent whole. He concludes by discussing the direction in which democracy must move if advanced democratic states are to exist in the future.

Democracy and Its Critics Robert A. Dahl 2008-10-01 In this prize-winning book, one of the most prominent political theorists of our time makes a major statement about what democracy is and why it is important. Robert Dahl examines the most basic assumptions of democratic theory, tests them against the questions raised by its critics, and recasts the theory of democracy into a new and coherent whole. He concludes by discussing the directions in which democracy must move if advanced democratic states are to exist in the future. "When Robert Dahl

speaks about democracy, everyone should listen. With Democracy and Its Critics Dahl has produced a work destined to become another classic.”—Lucian W. Pye, American Political Science Review “In this magisterial work [Dahl]... describe[s] what democracy means...; why our own democracy is still deeply flawed; and how we could reform it.... A work of extraordinary intelligence and, what is even rarer, a work of extraordinary wisdom.”—Robert N. Bellah, New York Times Book Review

Sustainable Governance Indicators 2011 Bertelsmann Stiftung 2011-08-19 The Sustainable Governance Indicators (SGI) 2011 make up the second and latest edition of this major study, and they build upon the work of the successful and widely acknowledged first edition, from 2009. The study examines 31 OECD countries and their performance during the period between May 2008 and April 2010, which witnessed the height of the global financial turmoil and economic crisis. In addition to the 2011 findings, this volume also includes essays on the project's conceptual framework and methodology as well as summaries and strategic forecasts for each of the countries.

An Analysis of Robert A. Dahl's Democracy and Its Critics Astrid Noren Nilsson 2017-07-05 There are few better examples of analysis - the critical thinking skill of understanding how an argument is built - than Robert Dahl's Democracy and its Critics. In this work, the American political theorist closely analyzes the democratic political system and then evaluates whether the arguments that are in favor of it are, in fact, rigorous. ¶Dahl sets out to describe democracy's merits and problems, asking if it really is the worthwhile political system we believe it to be. Knowing that the idea of democracy is now almost universally popular, his detailed analysis leads him to look at a number of regimes that claim to be democratic but do not, in truth, practice democracy. But Dahl is not only interested in uncovering uncomfortable truths. He goes further and creates a set of standards by which we can all decide whether a country really is democratic. Dahl's analysis of the evidence leads him to conclude that the following criteria must be met for a regime to be considered truly democratic: elected officials control policy-making; there are free and fair elections of officials; everyone must have a right

to vote; everyone has the right to run for office; there is freedom of speech; alternative information is available; and people can form free, independent political groups.

The Dance with Community Robert Booth Fowler 1991 Not an essay in normative political philosophy, but a discussion of the present-day developments in American political thought as they focus on community. Fowler (political science, U. of Wisconsin) tells the story of the coming of age of community in the thought of American political intellectuals and provides measured analysis and reflection on some of the directions in which thinking about community has proceeded.
