Accountancy 1988

Who's who in British Economics Rodney Paul Sturges 1990 This major directory provides for the first time up-to-date information on the work of economists in the United Kingdom. It will be an indispensable guide for economists and an invaluable reference source for the business community, officials in government and higher education. Who's Who in British Economics contains entries giving pertinent biographical data, a select bibliography together with a description of the economist's main area of work. A unique source of reference, it includes entries on members of the economics profession practising in Britain, whether as teachers, researchers, consultants, analysts or planners for institutions of higher education, business or government. The main listing in the book is alphabetic by economist's name, and the information is fully indexed so that searching, particularly on subject specialisation, is made easy.

Doing Economics Peter Smith 2016-04-28 Doing Economics offers a clear and accessible guide to the nature of Economics. Unlike many other mainstream disciplines, economics is a subject that many students meet for the first time when they arrive at University to study the subject at degree level. The way economics is studied at university level can vary greatly from economics as represented in the media, but this handy beginner's guide bridges that gap. This book answers such questions as: What is economics as a subject? What sorts of questions does it address? What skills are needed to become a good economist? Where will it take me? Students will be introduced to the key characters who contributed to the development of economics, as well as to the central ideas and concepts. This definitive guide outlines the attributes that make a good economist and presents a wide variety of employment opportunities that can follow the study of economics. Familiarising students with the important terms and issues, it is an essential volume for all students approaching this fascinating subject.
