Teaching Learners of English in Mainstream Classrooms (K-8) Linda New Levine 2009 Teaching Learners of English in Mainstream Classrooms is a unique resource designed to help K-8 classroom teachers integrate language learning into the content curriculum. This book helps teachers teach their grade level curriculum even though they may have English language learners in their classrooms. By using the strategies provided, teachers can promote content achievement for all of their students. Specifically written for content teachers, Linda New Levine and Mary Lou McCloskey's clear and friendly writing style emphasizes practical application of known second language learning principles. The authors offer classroom teachers practical strategies and tools to integrate content and language learning, accelerating the academic achievement of their students. Techniques for developing reading writing and speaking skills in the content areas are also emphasized.

Literary Education and Digital Learning: Methods and Technologies for Humanities Studies Peer, Willie van 2010-06-30 "This book provides insight into the most relevant issues in literary education and digital learning, covering literary aspects both from educational and research perspectives"--Provided by publisher.

The Rubrics Way David G. Lazear 1998 With this resource, teachers

will learn to step beyond the boundaries of the traditional linguistic-mathematical paradigm of assessment. In the new, brain-based assessment paradigm, instruction and assessment are two sides of a single coin. Using MI-based rubrics is the key to building authentic and intelligence-fair assessments. Provided here are 80 MI-based rubrics guidelines which can be applied and adapted to students' performances using the various intelligences; 240+ questions to ask when evaluating or assessing students' MI-based performances and the content/material assessed; 240+ questions to ask students about their MI-based performances to confirm their understanding of the required content/material; real classroom examples of MI-based assessment and rubrics which have been used by teachers; and more.

Teaching Elementary Social Studies James A. DuPlass 2008 Written for the elementary social studies methods course, this "interactive" program combines features of a textbook and a workbook, with thorough integration between the print text and a dynamic web site. Increasingly, majors in elementary education (if not the population at large) are more attuned to reading interactive material with relatively brief narrative, bulleted items, text boxes, and targeted messages (like web pages) rather than traditional, denser text. To accommodate these preferences, the layout of the print text features a larger-than-usual font, an 8 x 11" trim size, and spiral binding, and the content includes an abundance of bulleted lists, shaded text boxes, and contemporary graphics. The program's interactive approach and flexibility allow the professor to

model the kinds of teaching principles and practices that students will want to use in their own elementary school classrooms. These principles and practices are integrated throughout the text and include a focus on active-learning strategies, application of constructivist principles, focus on Big Ideas and thinking skills, use of the Internet, and modeling of Best Practices and Performance-based assessments (based on INTASC and NCATE standard). Thus, the book will serve as a springboard for classroom activities, web site explorations, and/or instructor-led activities.

The Macintosh iLife '05 in the Classroom Jim Heid 2005-08 Updated teacher's edition of the best-selling book on Apple iLife--the ultimate interactive classroom learning guide to iPhoto, iTunes, iMovie HD, iDVD, and GarageBand! Music, movies, and photos come together before your eyes. Just imagine the creative possibilities in store for you and your students. The special edition of Jim Heid's best-selling interactive guide to Apple iLife '05 includes practical information especially for K-12 teachers. Digital media guru Jim Heid and Filmmaker and educational consultant Nikos Theodosakis shows how digital media can be an integral part of the classroom routine, enhancing the learning experience in many subject areas. Everything you need to master the iLife applications is at your fingertips. The nearly three-hour instructional DVD lets you see and hear the iLife programs in action, with menus that let you jump to any topic in an instant. Lesson plans and a teacher supplement at the end of the book provide sample projects and show you

how other teachers have been using iLife in the classroom. Inside, you'll find clear, accessible instructions for: - Professional shooting techniques for digital cameras and camcorders - Editing video with iMovie HD - Creating spectacular, informative slide shows with iPhoto and iDVD - Recording and arranging original music with GarageBand - Producing a documentary video using photos and home movies - Making a soundtrack using music from old records and tapes - Using iMovie HD to turn a simple math lesson into a fun photo album - Interviewing family and community members for oral histories - Implementing and adapting award-winning projects from other teachers using iLife - Using the bonus files supplied on the DVD: GarageBand loops, essential utilities, sample projects, and more
