Spiritual Nutrition Gabriel Cousens, M.D. 2009-03-03 When we eat, can we feed the soul as well as the body? Can a diet have an impact on spirituality? Spiritual Nutrition empowers readers to develop personal diets that are appropriate to their lifestyles and spiritual practices. Drawing on 14 years of clinical experience and research, Dr. Gabriel Cousens discusses nutritional issues that can help answer these questions, including raw vs. cooked food; high vs. low protein; the concepts of assimilation and fasting; alkaline--acid balance; attitudes about food; nutrients, energy, and structure building. In addition, Cousens shares his new dietary system of "spiritual nutrition" that is based on the relationship that the color of the food has to corresponding colors of the human chakra system, hence, the "rainbow diet." For true nourishment, he strongly promotes the connection of diet to meditation, fellowship, wisdom, and love.

Crystal Healing Phyllis Galde 1988 If you have ever seen a person who was ailing and wanted to help, it's time for you to get *Crystal Healing* by Phyllis Galde. With the help of this book you will learn how to use crystals and common gemstones to heal the mind, body, and spirit of friends, family, and yourself. This book begins with a scientific introduction to crystals: how they're created, what they look like, and their different forms. The book looks at them from a historical viewpoint as well, including a survey of the use of crystal balls. *Crystal Healing* is really the next step in this process. It reveals the secrets of a special type of crystal known as electronic quartz. In this form it is perfectly clear and without any flaws. There are no impurities to interrupt or alter the flow of energy through them. They are the ideal tools for healing. Here you will learn that crystals work to amplify what you are sending. The book reveals easy-to-follow techniques that will allow you to program the crystals for any purpose. You'll discover how to use them to heal yourself and others; how they can help to reprogram your subconscious, heal pets, make special spiritual tools, and create amulets; and even discover how to program them to create the dreams you desire. For a book that is both scientific and spiritual, for learning about the ancient traditions and the modern methods of working with crystal and gem healers, you must get *Crystal Healing*.

Crystals, Jewels, Stones Isidore Kozminsky 2012-05-01 This book provides an exhaustive and comprehensive study of the lore and science of precious and semi-precious stones and crystals. Crystals have commanded the attention of thinkers, artists, mystics, magicians, astrologers, alchemists, and all who appreciate beauty. Intimately and mysteriously formed in the fires of Earth's inner essence, what is the meaning of these exquisitely shaped and colored gifts of the sacred bounty of Nature. Occultist Isidore Kozminsky explores the use of precious and semi-precious stones in fields as far flung as healing and design, practical esoteric energy channeling and decoration, as well as in powerful magical talismans by which specific energies may be invoked, and as artistic objects of great beauty. Inspiring mythic tales are balanced with practical instructions and knowledge about the astrological sympathies of crystals and the energy work and healing properties associated with all the major categories of precious stones. From Plato to Leonardo da Vinci, Kozminsky traces crystal lore through the researches of astrologers, magi, alchemists and Hermetic philosophers--all of whom explored the use of stones in the Universal Order and Harmony of the natural world.

Potency Matters Colombe Marie Van Stokkum 2004-08 Homeopathic potency has been an enigma for too long. Read how metaphysical tools can shed some light on this subject. The workings of energy medicine need tools that work in that realm.
