underlying how to influence jobs creation. Additionally, the book takes readers on different political parties' ideology, such as the conviction and arguments of political parties on how they can create environment for jobs creation. Furthermore, this book incorporates the suggestion of what the Eurozone governments and USA can do to influence job creation. This book explains in clear ideas different scenarios that governments could use to boost or facilitate job creation. The ambition of this book is also to guide readers interested in policy debate on jobs and unemployment, in starting a mature conversation, on how all new ideas should come to the table. This book also addresses business greed, and an increase in profits while pretending to work on jobs increase. In the end, readers will be able to see a clear picture, on how businesses, governments and others could boost job creation, in the same time, amassing enormous profits. **Fiscal Consolidation in Europe** Christophe Kamps 2001

*Parallax of Growth* Ole Bjerg 2018-03-15 *Parallax of Growth* explores the ideas of economy and ecology and the factors that have put them on a collision course. Bjerg argues that our current mode of economic organization is characterized by an inherent debt drive, whereby the creation of money through the issuance of commercial bank credit has locked our economy into a vicious circle of forced growth and increasing debt. *Parallax of Growth* is not a catalogue of solutions to the ecological or the economic crisis. The book aims to shift the inquiry from what shall we do? to why have we not already done it? In order to address the challenges of our contemporary times of crisis, we need to understand how the idea of growth is deeply ingrained in the ideology as well as the organization of our society. The book aims to open the space for philosophical thinking about this important issue.
