Literature for Young Adults

Joan L. Knickerbocker

2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre

chapters, Literature for Young Adults includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right--and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading. *How Does it Mean?* Lisa Schade Eckert 2006 This book is nothing short of fantastic. - Leila Christenbury, coauthor of *Writing on Demand* When you

search for ways to help reluctant readers, the often esoteric world of literary theory may not seem like a natural place to start. Yet in *How Does It Mean?* you'll discover that the core ideas of literary theories translate into immediately useful strategies that spark students' interest and encourage them to adopt a more active role in their own reading. *How Does It Mean?* takes literary theory out of the ivory tower, makes it useful and accessible, and places it squarely into your teaching repertoire. With reading strategies and instructional methods that draw on five well-known theories - Jungian/archetypal theory, objective theory, reader response theory, biographical theory, and thematic critical theory - Lisa Schade Eckert shows you how to offer reluctant readers a pathway into texts through theory as you explicitly introduce them to reading and discussing literature. Eckert also gives you opportunities to differentiate instruction and to

meet language arts standards using theory applications as well as to scaffold other popular strategies such as questioning the text, questioning the author, rereading, and connecting to prior knowledge. *How Does It Mean?* teases out opportunities to explicitly teach reading strategies, positions literary theory as a comprehension strategy for secondary English classrooms, balances content and knowledge by using flexible instructional methods, and models ways in which teachers can encourage critical reading. Best of all, it provides a new way to teach so that all students, especially reluctant ones, come to appreciate literary texts.

The Publishers Weekly 2004
Dope Sick Walter Dean Myers
2009-10-06 A powerful novel of drugs, violence—and second chances. *Dope Sick*, from two-time Newbery Honor winner and five-time Coretta Scott King Award winner Walter Dean Myers, belongs on reading lists beside *Long Way Down* by Jason Reynolds and

Dear Martin by Nic Stone. A drug deal goes south and a cop has been shot. Lil J's on the run. And he's starting to get dope sick. He'd do anything to change the last twenty-four hours, and when he stumbles into an abandoned building, it actually might be possible. . . . Elements of magical realism intensify this harrowing story about drug use, violence, perceptions of reality, and second chances. This ALA Quick Pick for Reluctant Young Adult Readers earned multiple starred reviews and was described as "vivid," "nuanced," and "intriguing." Booklist said: "Myers' narrative strategy is so inherently dramatic that it captures his readers' attentions and imaginations, inviting not only empathy but also thoughtful discussion." Walter Dean Myers was a New York Times bestselling author, Printz Award winner, five-time winner of the Coretta Scott King Award, two-time Newbery Honor recipient, and the National Ambassador for Young People's Literature.

Maria Russo, writing in the New York Times, called Myers "one of the greats and a champion of diversity in children's books well before the cause got mainstream attention."

Geographic summaries, itemized itineraries, and detailed maps help students trace each character's journey and comprehend the geographic scale of action. As a prelude to reading, the maps can help disadvantaged readers better understand the stories and settings of a book, which will significantly enhance any student's reading experience. Instruction on marking maps with notes and arrows will help students prepare for college-level classes as they organize their work, simplify confusing elements, outline chronology, and incorporate additional reading and research.

The Courage to Imagine

Roni Natov 2017-11-30 The act of imagining lies at the very heart of children's engagements with literature and with the plots and characters they encounter in their favorite stories. *The Courage to Imagine* is a landmark new study of that

fundamental act of imagining. Roni Natov focuses on the ways in which children's imaginative engagement with the child hero figure can open them up to other people's experiences, developing empathy across lines of race, gender and sexuality, as well as helping them to confront and handle traumatic experience safely. Drawing on a wide range of theoretical approaches from the psychological to the cultural and reading a multicultural spectrum of authors, including works by Maya Angelou, Louise Erdrich, Neil Gaiman and Brian Selznick, this is a groundbreaking examination of the nature of imagining for children and re-imagining for the adult writer and illustrator. **Monster** Walter Dean Myers 2004-12-14 While on trial as an accomplice to a murder, 16-year-old Steve Harmon records his experiences in prison and in the courtroom in the form of a film script, as he tries to come to terms with the course his life has taken.

Learning, Culture, and Community in Online Education Michelle M.

Kazmer 2004 In 1996 the Graduate School of Library and Information Science at the University of Illinois at Urbana-Champaign began an Internet-based teaching program, allowing students across the United States - and the world - to earn a Master's degree from a distance. The program, known as LEEP (Library Education Experimental Project), has been an outstanding success, and as an

early innovation in Internet use, provides important lessons on how to flourish in an online environment. Learning, Culture and Community in Online Education brings together significant new research on online education, using the LEEP program as a model to reveal a wealth of information about innovative online practices. Contributions by administrators, philosophers, faculty, librarians, technical staff, and researchers in the traditions of education, computer science, folklore, information science, and sociology, reveal the many perspectives to be taken into account when creating and maintaining distance learning programs. More than an analysis of the LEEP program, this book is an essential introduction to the variety of social and educational phenomena that occur within the socio-technical environments that support online learners.

Game Walter Dean Myers
2009-10-06 This thrilling basketball story from New York Times bestselling author Walter Dean Myers is a strong choice for independent reading and sharing in the classroom. Thought-provoking and packed with court action, *Game* is a winner! Drew Lawson is all about basketball. Everyone in his life knows that his game is taking him places. (It has to, because his grades certainly won't.) Drew knows how hard it is to make it big, but even with the long odds, he is good enough to have a shot. But

when Coach hands the ball to another player—Tomas, a white kid from Europe—Drew can't help but feel like he's not the star on the courts anymore. He's seen enough men in his neighborhood flame out to know that if he wants to be extraordinary, his game has to be the best. As his team makes the playoffs with Tomas on the court, Drew knows he has to come up with a big move to save his fading college prospects. It's all up to Drew to find out just how deep his game really is. Walter Dean Myers was a New York Times bestselling author, Printz Award winner, five-time winner of the Coretta Scott King Award, two-time Newbery Honor recipient, and the National Ambassador for Young People's Literature. Maria Russo, writing in the New York Times, called Myers "one of the greats and a champion of diversity in children's books well before the cause got mainstream attention."
