BASIC ENGLISH FOR NURSE Lanlan Muhria Nana Supriatna Rully Khoeru Solihin, Penerbit Adab Judul : BASIC ENGLISH FOR NURSE Penulis : Lanlan Muhria Nana Supriatna Rully Khoeru Solihin Ukuran : 15,5 x 23 cm Tebal : 128 Halaman ISBN : 978-623-497-571-0 Sinopsis English language proficiency is becoming crucial for nurses working in the healthcare industry. It is because they must be able to communicate with others in their industry, particularly medical professionals, and patients. The book aims to improve the English proficiency of Indonesian nurses. The topic picked for the book is appropriate for what nurses learn. The authors anticipate that nurses will find this book valuable in their efforts to learn English, particularly in assisting nurses in their efforts to comprehend nursery objects in English so that they may use English in their daily duties. The most crucial and necessary talent, according to a need analysis that has been noticed, is speaking. The speaking skills section includes exercises to help you hone your speaking abilities. However, because reading is a crucial skill for nurses to have access material in English, the book also aids in the development of reading abilities. To keep the learners motivated in studying English, the book's tasks encourage speaking, reading, listening, and writing.

American Book Publishing Record 2006

Journal of International Doctoral Research (JIDR) Volume 5, Number 1, December 2016 Gillian Warner-Søderholm 2017-05-03 This fifth volume of the JIDR is devoted to a wide range of research themes, which are all linked to the concepts of learning, motivation and happiness, both implicitly and explicitly. The discussions in these articles highlight several recurring and yet under-researched issues in these fields. The most critical of these themes is what leads to excellence in learning, well being and optimism levels. In publishing this symposium, we believe that our 18 authors offer pertinent reflections upon this valid question.

Intellectual Disability in Health and Social Care Stacey Atkinson 2014-09-16 Many practitioners within health and social care come into contact with people with intellectual disabilities and want to work in ways that are beneficial to them by making reasonable adjustments in order to meet clients' needs and expectations. Yet the health and wellbeing of people with learning disabilities continues to be a neglected area, where unnecessary suffering and premature deaths continue to prevail. This text provides a comprehensive insight into intellectual disability healthcare. It is aimed at those who are training in the field of intellectual disability nursing and also untrained practitioners who work in both health and social care settings. Divided into five sections, it explores how a wide range of biological, health, psychological and social barriers impact upon people with learning disability, and includes: Six guiding principles used to adjust, plan and develop meaningful and accessible health and social services Assessment, screening and diagnosis of intellectual disability across the life course Addressing lifelong health needs Psychological and psychotherapeutic issues, including sexuality, behavioural and mental health needs, bereavement, and ethical concerns. The changing professional roles and models of meeting the needs of people with intellectual and learning disabilities. *Intellectual Disability in Health and Social Care* provides a wide-ranging overview of what learning disability professionals' roles are and provides insight into what health and social care practitioners might do to assist someone with intellectual disabilities when specific needs arise.

who are studying for a career in nursing James Greenan 2007 Nursing 1 is suitable for trainee nurses, who are studying for a career in nursing, and for qualified nurses who are thinking of working in English-speaking countries, or have to deal with tourists. The course presents students with English from a variety of nursing fields, develops their communication skills, and provides background information in major medical and care concepts. 'Body Bits' focuses on a particular part or parts of the body, and extends students' vocabulary for talking about the body and its functions. The 'Signs and Symptoms' section focuses on common diseases and conditions that are relevant to a specific unit. This provides students with the necessary vocabulary for describing common signs of illness. Listening and speaking skills are particularly emphasised and practised in Nursing 1, as these are essential for relations with patients. The 'Patient Care' section teaches students how to convey instructions to patients and their relatives in a sympathetic and clear way, especially if dealing with sensitive matters. The course supports teachers in the vocational teaching situation, providing them with specialist background information for the medical industry. Aimed at Pre-Intermediate to Intermediate level learners. The pack contains: student book, teacher book, class CD. Table of contents: * The hospital team * In and around the hospital * Hospital admissions * Accidents and emergencies * Pain * Symptoms * Caring for the elderly * Nutrition and obesity * Blood * Death and dying * Hygiene * Mental health nursing *

Monitoring the patient * Medication * Alternative treatments.
