Everywhere, there is concern about the present, and future, as governments, religions, and economics no longer live up to their claims. People want to be able to solve pressing issues, and current challenges. People want to be able to survive the present and somehow prepare for the future, but how? Everyone wants to be safe, but where to go? What to do? Where to look? Every issue surrounding the human experience is based in consciousness. The language of consciousness expressed through human culture exposes intimate relationships with environment. Through the expansion of individual awareness, the collective of humanity, will benefit via new resolutions to current challenges, as well as those encountered in the future.

*The Purposeful Universe* Carl Johan Calleman 2009-10-13 Identifying the Mayan World Tree with the central axis of the cosmos, the author shows how evolution is not random • Shows how the evolution of the universe emanates from the cosmic Tree of Life • Explains the origin and evolution of biological life and consciousness and how this is directed Using recent findings within cosmology, coupled with his broad understanding of the Mayan Calendar, biologist Carl Johan Calleman offers a revolutionary and fully developed alternative to Darwin's theory of biological evolution--and the theory of randomness that holds sway over modern science. He shows how the recently discovered central axis of the universe correlates with the Tree of Life of the ancients. This provides an entirely new context for physics in general and especially for the origin and evolution of life and suggests that we look upon ourselves as parts of a hierarchy of systems that are all interrelated and evolve in a synchronized way. Calleman's research demonstrates that life did not just accidentally "pop up" on our planet, but that Earth was a place specifically tagged for this. He demonstrates how the Mayan Calendar describes different quantum states of the Tree of

Life and presents a new explanation for the origin and evolution of consciousness. Calleman uses his scientific background in biology and cosmology to show that the idea of the Purposeful Universe is real. He explains not only how DNA but also entire organisms have emerged in the image of the Tree of Life, a theory that has wide-ranging consequences not only for medicine but also for the origin of sacred geometry and the human soul. With this new theory of biological evolution the divide between science and religion disappears.

The Mayan Calendar and the Transformation of Consciousness Carl Johan Calleman 2004-03-25

Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future

- Shows the connection between cosmic evolution and actual human history
- Provides a new science of time that explains why time not only seems to be speeding up in the modern world but is actually getting faster
- Explains how the end of the Mayan calendar is not the end of the world, but a path toward enlightenment

The prophetic Mayan calendar is not keyed to the movement of planetary bodies. Instead, it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows--providing a new science of time. The calendar is associated with nine creation cycles, which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid. Through empirical research Calleman shows how this pyramidal structure of the development of consciousness can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster. Time, in fact, is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness--the Galactic Underworld--in preparation for the final Universal level of conscious enlightenment. Calleman reveals how the Mayan calendar is a spiritual device that

enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment.

**Aliya's Dream - A Story of Awakening (+ 100 Soul Paintings)** Alija Ariana Karima 2024-07-18

"Aliya's Dream - A Story of Awakening" is a book for all those who are on a journey of awakening, seeking answers to that most important of questions, who am I. For those who want to discover the meaning of their existence, want to better understand themselves, the way they create reality. Perhaps they feel saturated with earthly experiences and already hear the call of their Soul, which invites them to discover their depths. Describing my own process of awakening to enlightenment, I show characteristic stages, challenges and discoveries. I share the stories and wisdom that led me to recall my true divine nature. This is a sincere, inspiring story about the search for the Holy Grail, which turned out to be my own Soul. I wrote it so that everyone can know his true nature, awaken the Master he already is, leave limitations and start living for the sheer joy of life. On my way to enlightenment I was accompanied by Ascended Masters Adamus Saint Germain, Tobias, Kuthumi and Crystal Dragon. During your reading they will be with you as well. "Aliya's Dream - A Story of Awakening" is available in paperback and e-book versions in 14 languages. The e-book contains more than 100 illustrations, including Aliya's paintings and photos from her fabulous travels around the world. Here are some of the topics covered: - The stages and challenges of the process of awakening to enlightenment - The origins of our origin and the creation of the world - Why are we here ? - What is energy and consciousness - How we create reality - The illusion of time and space - Reincarnation - Ayahuasca - Energy games - Releasing ancestors, conditioning, karma - Healing process - Integration of aspects - Integration of the light body - Dragons and Ascended Masters Shaumbra - Acceptance, Trust, Wisdom and Love

- Experiencing Self as pure consciousness - Enlightenment Alija Ariana Karima is a spiritual guide, soul painter, healer, pioneer of Vedic Art painting courses in Poland, Soul Body Fusion practitioner and teacher, lecturer, author and traveler. Privately, she is a happy mom who loves the magic of life. \*\*\* "One of the five most beautiful books I have read." - Annette "I've already read a zillion books on development, spirituality and awakening, and this one still surprised me. I can't tear myself away from it. I don't know if it's because it was written by my Vedic Art teacher and I happened to know some of the people and events described here - that's why it's such a great read? Is it because I can feel with every cell of my body what Alija is writing about? Is it that I can additionally look at and admire her paintings, of which there are plenty in the book? But is it the unique way she framed the theme of Awakening? Is it me being at a different stage again? Or can you put it all together? The fact of the matter is that I think the book is brilliant, and I am extremely grateful that it was created." - Magdalena B. "This book is revelatory in every way. I recommend it to everyone on the path of awakening."- Joanna K. "I read it in one breath. Your insights are amazing. Your book pointed out a great deal to me. Wonderful that you wrote it. I will keep coming back to it." - Marzena

The Global Mind and the Rise of Civilization Carl Johan Calleman 2016-05-29 How the global mind drives the evolution of both consciousness and civilization • Explains how our brains receive consciousness from the global mind, which upgrades human consciousness according to a pre-set divine time frame • Reveals how the Mayan Calendar provides a blueprint for these consciousness downloads throughout history • Examines the mind shift in humans and the development of pyramids and civilization in ancient Egypt, Sumer, South America, and Asia beginning in 3115 BCE In each culture the origins of civilization can be tied to the arising of one concept in the human mind: straight lines. Straight and perpendicular lines are not found in nature, so where did they come from? What shift in consciousness occurred around the globe that triggered the start of rectangular building methods and linear organization as well as

written language, pyramid construction, mathematics, and art? Offering a detailed answer to this question, Carl Calleman explores the quantum evolution of the global mind and its holographic resonance with the human mind. He examines how our brains are not thinking machines but individual receivers of consciousness from the global mind, which creates holographic downloads to adjust human consciousness to new cosmological circumstances. He explains how the Mayan Calendar provides a blueprint for these downloads throughout history and how the global mind, rather than the individual, has the power to make civilizations rise and fall. He shows how, at the beginning of the Mayan 6th Wave (Long Count) in 3115 BCE, the global mind gave human beings the capacity to conceptualize spatial relations in terms of straight and perpendicular lines, initiating the building of pyramids and megaliths around the world and leading to the rise of modern civilization. He examines the symbolism within the Great Pyramid of Giza and the pyramid at Chichén Itzá and looks at the differences between humans of the 6th Wave in ancient Egypt, Sumer, South America, and Asia and the cave painters of the 5th Wave. He reveals how the global mind is always connected to the inner core of the Earth and discusses how the two halves of the brain parallel the civilizations of the East and West. Outlining the historical, psychological, geophysical, and neurological roots of the modern human mind, Calleman shows how studying early civilizations offers a means of understanding the evolution of consciousness.

New Consciousness for a New World Kingsley L. Dennis 2011-08-16 A call for a paradigm shift in human thinking in recognition of the interconnectedness of all things--a new mind for a new world • Explains how the instability of our current time is part of a larger cycle of human evolution that will soon turn toward renewal and regeneration • Reveals how to participate in the process of conscious evolution to maintain resilience during these transitional times • Examines new findings in quantum physics and quantum biology on the interconnectivity of all life and how to utilize this for conscious evolution For centuries, indigenous wisdom

traditions have talked of an epochal shift on the horizon, of a spiritual renaissance for the earth and her living family. Now the timelines are converging and the potential for an energetic "upgrade" for humanity is here, but first we must survive and evolve through the current period of transition. Explaining that evolution is not a gradual process but more like a "shock to the system"--radical waves of transformation after a period of dormancy--author Kingsley Dennis reveals that we are currently undergoing an evolutionary leap and shows not only how to survive but also thrive in this period of global upheaval and change. Examining the nature of evolutionary cycles, he explains that the instability we are now experiencing--climate change, economic meltdowns, and increasing political polarization--is the convergence of complex systems that have reached a critical state. What we need in order to push through to the coming spiritual renaissance is a paradigm shift in human thinking and perception, a conscious evolution in recognition of the interconnectedness of all things--a new mind for a new world. Examining new findings in quantum physics and quantum biology on the interconnectivity of all life as well as opportunities for us to reawaken our slumbering souls, this book offers a glimpse of the new global society to come, a renewed humanity for the 21st century, and how each of us can best participate during the process of planetary transformation.

**Galactic Alignment** John Major Jenkins 2002-07-01 Explores the central role played by the galaxy in both ancient and modern times in the transformation of the human spirit. • Extends Jenkins' groundbreaking research in *Maya Cosmogogenesis 2012*. • Reveals how the coming Galactic Alignment of era-2012 promises a renewal of human consciousness. • Uncovers the galactic vision of Mayan, Egyptian, Greek, and Vedic cosmologies. The Galactic Alignment is a rare astronomical event that brings the solstice sun into alignment with the center of the Milky Way galaxy every 12,960 years. Building on the discoveries of his book *Maya Cosmogogenesis 2012*, Jenkins demonstrates that the end-date of 2012 does not signal the end of time but rather the beginning of a new stage in the development of human consciousness. He

recovers a striking common thread that connects the ancient cosmological insights of the Maya not only to Egyptian thought and Vedic philosophy but also to the diversity of humankind's metaphysical traditions ranging from Celtic sacred topography and Medieval alchemy to the Kabbalah and Islamic astrology. His work presents us with a groundbreaking synthesis of lost wisdom once common to ancient cosmologies that will help us understand the significance of this transformative cosmic milestone.

[The Nine Waves of Creation](#) Carl Johan Calleman 2016-11-15 A guide to aligning your life with the frequencies of the Nine Waves of Creation •

Explains the quantum physics behind the Waves of the Mayan Calendar system and how their holograms shape the human mind • Shows how throughout history each revolution in human consciousness has been driven by the activation of one of the Nine Waves of Creation • Reveals how we can consciously work to deactivate the negative patterns of the Sixth Wave and manifest the unity consciousness of the Ninth Wave In the past few years the world has witnessed changes in social consciousness whose sudden development the ruling scientific paradigm has not been able to explain. These changes correspond with the activation of new Waves of Creation emanating from the center of the universe that influence human thinking.

From the Big Bang to the present, these Waves guide the evolution of the universe and, through their holographic resonance with the human mind, profoundly shape revolutions in religion, technology, economy, and social consciousness. Presenting a quantum-holographic perspective on world history and human consciousness, Carl Calleman explains the quantum physics behind the Waves of the Mayan Calendar system and how these Waves allow us to understand the shifting eras on Earth as well as the possibilities of the future. He describes how, prior to the activation of the 6th Wave in 3115 BCE, our social systems were based on a unified cosmic order, but the hologram of this Wave shifted society to an all-consuming focus on Good and Evil, leading to the rise of patriarchal religious

structures, slavery, and warfare. He explores how later Waves and their new holograms helped humanity survive the negative effects of the 6th Wave, such as the Industrial Revolution of the 7th Wave and the Digital Revolution of the 8th Wave. In 2011, the 9th Wave was activated, bringing with it an accelerated push for a more egalitarian world, a rising awareness of unity consciousness, and access to the full power of all Nine Waves of Creation. Calleman explains how our individual resonance with each Wave plays a role in the quality of our lives and how we must consciously work to resonate with the higher Waves. Revealing how we can become quantum activists in a holographic world by aligning with the 9th Wave, the author shows how we each can help manifest the destiny of humanity hinted at in ancient texts.

**Quantum Science of Psychedelics** Carl Johan Calleman 2020-03-10 A groundbreaking exploration of how psychedelics and quantum science are vital to understanding the evolution of consciousness and reality • Explains why altered states of consciousness exist, how they work, and why psychedelics have the effects that they do • Describes how quantum waves, rather than the DNA molecule, have been the driving force behind biological and historical evolution • Explains how psychedelics interact with the human mind to create altered states that may further the continued evolution of consciousness In this groundbreaking book, Carl Johan Calleman reveals the quantum science of the Maya, a science lost to the modern world that explains the phenomenology of psychedelics and altered states of consciousness. The ancient Maya had a sophisticated understanding of the multidimensional nature of reality and the forces that drive the evolution of consciousness.

Calleman explains how quantum waves, illustrated by the Mayan Calendar, emanate from the center of the universe and activate new phases in the evolution of consciousness through holographic resonance, which alters the dualities of the human mind. For example, the 5th Wave, which dominated in Paleolithic times and evolved human consciousness above that of animals, brought a chaotic floating state reminiscent of the psychedelic or shamanic

state, and the recent 8th Wave brought the digital revolution. The 9th Wave, which began in 2011, offers the potential for individual development of higher consciousness and healing if we can synchronize ourselves with its positive holograms. This multidimensional perspective explains why altered states of consciousness exist and how they work. Calleman describes the role of the pineal gland for the human mind, how it controls our state of consciousness and how it can connect us to the cosmic Tree of Life. He shows that the mind is a "reducing valve" that normally limits our experience of cosmic consciousness but that this can be reversed through altered states. As Calleman concludes, psychedelics like ayahuasca and DMT not only give rise to extraordinary mystical and cosmic experiences and enable access to healing states, but they also are important for harmoniously synchronizing humanity with the 9th Wave to further the evolution of consciousness.

**Conscious Healing** Sol Luckman 2009-05-10  
The classic, definitive book on DNA activation, CONSCIOUS HEALING, now updated and expanded with a wealth of empowering new information, is far more than the inspiring story of the development of a "revolutionary healing science" (NEXUS). An unparalleled synthesis of modern and ancient healing wisdom, this leading-edge text is essential reading for anyone interested in alternative medicine, energy healing, consciousness research, quantum biology, human evolution, or personal enlightenment. Sol Luckman's bestselling, reader-friendly narrative details his experience of chronic illness and miraculous recovery thanks to the Regenetics Method of DNA activation--offering a ray of hope to those who, like the author, have "tried everything." In addition, CONSCIOUS HEALING provides scientific substantiation for the work of alternative healers from many orientations, clearly and convincingly making the case for energy work in general. CONSCIOUS HEALING might "be the key that unlocks an entirely new way of being" (ODYSSEY Magazine, Editor's Choice Book).

2012 Daniel Pinchbeck 2007 Draws on cosmological phenomena of the modern world as well as the author's own research into shamanic

and metaphysical belief systems to support the Mayan theory about an unprecedented global shift predicted for the year 2012.
