The Shakespearean World Jill L Levenson 2017-03-27 The Shakespearean World takes a global view of Shakespeare and his works, especially their afterlives. Constantly changing, the Shakespeare central to this volume has acquired an array of meanings over the past four centuries. "Shakespeare" signifies the historical person, as well as the plays and verse attributed to him. It also signifies the attitudes towards both author and works determined by their receptions. Throughout the book, specialists aim to situate Shakespeare's world and what the world is because of him. In adopting a global perspective, the volume arranges thirty-six

chapters in five parts: Shakespeare on stage internationally since the late seventeenth century; Shakespeare on film throughout the world; Shakespeare in the arts beyond drama and performance; Shakespeare in everyday life; Shakespeare and critical practice. Through its coverage, The Shakespearean World offers a comprehensive transhistorical and international view of the ways this Shakespeare has not only influenced but has also been influenced by diverse cultures during 400 years of performance, adaptation, criticism, and citation. While each chapter is a freshly conceived introduction to a significant topic, all of the chapters move beyond the level of survey, suggesting new directions in Shakespeare studies - such as ecology, tourism, and new media - and making substantial contributions to the field. This volume is an essential resource for all those studying Shakespeare, from beginners

to advanced specialists.

Frame Escapes: Graphic Novel Intertexts

Mikhail Peppas 2019-07-22 This volume was first published by Inter-Disciplinary Press in 2016. The graphic narrative - in merging text with image - showcases an experiential panorama of visceral emotions for the users. Central to the format are considerations about the place of the image story in history and location. Both the comic and the graphic novel appropriate and are appropriated by diverse media in the enactment of individual, social and cultural identity. Intermediality morphs literature into pictures, films into graphic fiction, images into frames, and incorporates a host of flexible production values linked to high/low

graphic arts. The structure of the graphic novel, city imaging, food fetishes, autographics, parallel worlds, Superhero guises, character patterning and shifting identities are explored in the eclectic volume by a range of authors using multimodal devices to analyse the composition, reading and interpretation of graphic narratives. The unstoppable momentum of holistic literature promises a converged means of expression that transcends the separation of print, digital and screen while transporting the dialogue about comics into a central scenario of popular culture. Throughout, the story stands strong in parallel with the probing of key concepts such as boundary transgression, moral searching, and the predictiveness of 'frame-casting' that allows feedback between the comic book frame and the silhouette of the future city.

The Sandman Vol. 3: Dream Country Neil Gaiman
2010-10-19 NEW YORK TIMES bestselling author Neil Gaiman's transcendent series SANDMAN is often hailed as the definitive Vertigo title and one of the finest achievements in graphic storytelling. Gaiman created an unforgettable tale of the forces that exist beyond life and death by weaving ancient mythology, folklore and fairy tales with his own distinct narrative vision. The third book of the Sandman collection, DREAM COUNTRY continues the fantastical mythology of Morpheus, the King of Dreams. In these centuries-spanning tales, the powerful entity known as the Sandman interacts with a diverse assortment of humans, fairies, heroes, and animals as he walks the mortal plane. Including an amazing encounter with William Shakespeare and an interesting take on the origin and first performance of "A Midsummer Night's Dream," this book depicts the dreaming world of

cats, the tragic life of forgotten super-heroes and the folly of imprisoning and torturing a former lover of the King of Dreams. A new, recolored edition of the classic SANDMAN series, DREAM COUNTRY collects issues #17-20 including "A Midsummer Night's Dream," which won a World Fantasy Award.

Books of Magick Si Spencer 2005 "Tim Hunter returns in this first collection of his new title, collecting the initial story arc from issues #1-5 as co-plotted by Neil Gaiman. This new take on the Hunter is loaded with dystopian undercurrents and psychological horror."-- Publisher's website.

Samurai Brian Azzarello 2004 Loop Hughes' stay in prison is complicated by a very unwelcome acquaintance and Jack Daw finds himself facing a variety of wild animals in a roadside zoo.

The Doll's House Neil Gaiman 1991 The Sandman returns to his kingdom as Rose Walker discovers her true identity and

serial killers gather.

Horror Comics and Religion

Brandon R. Grafius 2024-12-05

While many genres offer the potential for theological reflection and exploration of religious issues, the nature of horror provides unique ways to wrestle with these questions. Since EC Comics of the 1950s, horror comics have performed theological work in ways that are sometimes obvious, sometimes subtle, but frequently surprising and provocative. This collection brings together essays covering the history of horror comics, from the 1950s to the present, with a focus on their engagement with religious and theological issues. Essays explore topics such as the morality of EC Comics, cosmic indifference in the works of Junji Ito, the reincarnated demons of the web-comic *The Devil is a Handsome Man*, religion and racial horror in comic voodoo, and much more.

Fables and Reflections Neil Gaiman 1993 *Fables and Reflections* follows the Lord of Dreams through nine remarkable tales as he touches lives from the mists of the past to the nightmares of the present. In these episodes, kings and spies, emperors and actors, ravens and werewolves all share their stories and their dreams - dreams of life and love, and of power and darkness. -- Back cover.

Fabricating the Body Sarah Himsel Burcon 2014-03-17 *Fabricating the Body: Effects of Obligation and Exchange in Contemporary Discourse* is comprised of nine chapters that revolve around the body, and more specifically, issues related to identity. The text draws on a variety of criticism—including disability, gender, and psychoanalytic

studies—to theorize aspects relevant to the human body historically. For example, Rachel Herzl-Betz’s “A Paratactic ‘Missing Link’: Dorian Gray and the Performance of Embodied Modernity” uses disability studies as a lens through which to examine Oscar Wilde’s literary debt to the atavistic discourse of late-Victorian freak shows. Moving forward in time, Melissa Ames’s chapter, “Bodies of Debt: Interrogating the Costs of Technological Progress, Scientific Advancement, and Social Conquests through Dystopian Literature” is a pedagogy-focused chapter. In the chapter, Ames discusses a college course in which she asked students to consider contemporary debates, such as cloning, stem cell research, human trafficking, and so forth, in tandem with fictional texts that relate these issues. Ultimately, the class wrestled with the question of: what do we do when human survival and societal progress come at extreme costs? As a whole, the

text works to stimulate conversations surrounding the body, and specifically, bodies that can be labeled “indebted.” Fabricating the Body brings together issues of gender, class, and identity, and investigates ethical concerns along with topics related to marginalization and the mind/body split. Ultimately, the text situates the body as a productive space for academic research.
