

The Tao Of Philosophy

Taoism, indigenous religio-philosophical tradition that has shaped Chinese life for more than 2,000 years. Join the Technology Association of Oregon (TAO) and discover how we unite tech companies, thought leaders, and communities to foster innovation and growth. In Taoism, Chinese Buddhism, and Confucianism, the object of spiritual practice is to "become one with the Tao" (Tao Te Ching) or to harmonize one's will with nature to achieve 'effortless action'. The Tao is a concept to describe something that goes beyond our capability to define. Taoism leaves the Tao undefined, and a Taoist happily explores the wonder that opens up as a result. Taoist ethics generally emphasize virtues of effortless action, naturalness, simplicity, and the three treasures of compassion, frugality, and humility. Taoism is both a religion and philosophy with roots extending to ancient shamanism. It is codified in the Tao Te Ching, history's second most translated book after Christianity's Holy Bible. Its eighty-one ... Tao (pronounced "dao") means literally "the path" or "the way." It is a universal principle that underlies everything from the creation of galaxies to the interaction of human beings.
