Performing Iran Babak Rahimi 2021-08-26 The result of collaborative research from noteworthy dramatists and scholars, this volume investigates the dynamic relationship between culture, performance and theatre in Iran. The studies gathered here examine how various forms of performances, especially theatre, have and continue to undergo change in response to shifting political and social settings from the antiquity to the present day. The analysis in this book focuses on performance practices, examining drama, texts, rituals, plays, music, cinema and drama technologies. This is done in order to show how Iran has been imagined through enactments and representations, and reproduced through these performative actions. The book uses a wider definition of the concept

of 'performance', offering analysis of a wide range of phenomena, including indigenous rituals - such as the naqqali and taziyyeh - and online performances by diaspora communities.

*Iran's Green Movement* Navid Pourmokhtari 2021-05-26 This book examines the emergence and development of the 2009 Green Movement in Iran. The approach emphasizes the context and the local and historical specificities in which mass oppositional movements arise, develop and conduct their operations. Meanwhile, it foregrounds an account of multiple modernities that work to transcend modernist assumptions. The volume describes and analyzes the power

modalities—disciplinary, biopolitical, and sovereign—employed by the Islamic Republic to governmentalize the masses. Bearing a triangular methodology, the book consists of six semi-structured interviews with authorities and activists who participated in the pivotal events of that period; discourse analysis focusing on the Iranian constitution and the relevant government policy documents and speeches; and archival analysis. These provide the historical background, perspectives and insights required to analyze and explicate the conditions responsible for the emergence of the Green Movement and to grasp how collective action was enabled and organized. Marking a particular historical phase in the development of a home-grown democracy in post-revolutionary Iran, the Green Movement is transforming the country's political landscape. This book is a key resource to students and scholars interested in comparative politics, Iranian studies and the Middle East.

**The Political History of Modern Iran** Mehran Kamrava 1992 This book offers a concise and comprehensive examination of Iran's political history from the establishment of the Qajar dynasty in 1785 until the present. It focuses on both the historical evolution of Iranian political institutions as well as on the processes and phenomena to which these institutions have been exposed. Since politics do not occur within a culturally vacuous context, attention is also drawn to the dominant characteristics of Iran's political culture--from tribalism and religion to the cult of personality and political demagoguery--that have similarly shaped political life in Iran. Such characteristics have acquired added accent under the revolutionary regime of the Islamic Republic, although the revolution's gradual routinization has once again brought about a measure of political normalcy. Attention is drawn to the persistence of specific political dynamics that have proven to be particularly resilient throughout Iran's recent

history. Throughout the reigns of the three regimes governing Iran since the eighteenth century--the Qajars, the Pahlavis, and the Islamic Republic--radically different from one another as they have been, the three themes of political autocracy, foreign intervention, and revolution have remained.

Here are Washington's "Neutrality Proclamation," Lincoln's Emancipation Proclamation, and the more than 1,700 executive orders issued by Woodrow Wilson in World War I. FDR issued many executive orders to implement his National Industrial Recovery Act--but also issued one that led to the incarceration of Japanese Americans during World War II. *Iran* John W Limbert 1987-03-19 Iran is the only Middle Eastern state to have preserved its national identity through the upheavals of Arab,

Turkish and Mongol invasions. It is heir to the richest culture in the Middle East: a culture that extends far beyond the state's political boundaries. This book, first published in 1987, traces elements of continuity in Iranian society from pre-Islamic times to the turmoil of the Islamic Republic. The author discusses the persistence of religion as a dominant force in Iran's politics and society; the attraction of unorthodox doctrines such as Mazdakism, Baha'ism, and revolutionary Shi'ism; the tradition of strong, charismatic leadership; and the constant problem of ruling peoples of diverse tribal, religious and linguistic affiliations. He finds explanations for recent political changes in conditions peculiarly Iranian and examines the emerging post-revolutionary society along with some of its new institutions, including the revolutionary guards, the assembly, the neighbourhood committees, and the Friday prayer leaders.
