Cut and Fold Techniques for Pop-Up

Designs Paul Jackson 2014-02-17 Introducing techniques for making pop-ups from one sheet of card, the third title in this series on paper engineering takes folding techniques into the third dimension. Each chapter introduces a new technical idea and shows how that technique can be adapted in many different ways, or combined with techniques from earlier chapters. These 3-D techniques can be incorporated into any design where typography and/or illustration are used,

including mail-shots, personal publicity, invitations, business cards and greetings cards. With their emphasis on surface design over complex cutting, the pop-ups have an instant appeal for designers. Following the elegant, easy-to-follow style of Paul Jackson's other titles for Laurence King, *Cut and Fold Techniques for Pop-Up Designs* is an essential resource for marketing professionals and design students.

Cut and Fold Techniques for Promotional Materials Paul Jackson 2013-03-04

Cut and Fold Techniques for Promotional Materials is a unique collection of over 40 attention-grabbing cut-and-fold designs that when printed and illustrated form memorable give-aways to promote and advertise services and products. The book provides a one-stop source for novelty promotional materials, many appearing in print

for the first time. Some designs are interactive toys that turn inside out or reveal hidden faces when played with, others are more practical, offering ingenious ways to fold-up letters, brochures and posters, or to create novelty envelopes and leaflets. All the designs will enhance a message or presentation, grabbing attention in ways that simple printing can never achieve. Following the elegant, easy-to-follow style of Paul Jackson's other titles for Laurence King, *Cut and Fold Techniques for Promotional Materials* is an essential resource for marketing professionals and design students, and an inspirational guide to anyone looking to enhance the presentation of their product or service.

The Arts and Crafts Computer Janet Ashford 2002 *The Arts and Crafts Computer* shows you how to use your personal computer, scanner, digital camera and color printer as artist tools to create beautiful graphics and artful objects for your home, school and work. You'll learn how to: Understand the basics of digital image-editing,

typesetting and graphic design. Gather the right tools, both digital and traditional. Use the new inkjet printing media including cloth, decals, stickers, magnets, transparencies and more. Work with art materials safely, avoid computer-related stress and find environmentally-friendly materials. Create unique greeting cards and envelopes, artist books, games, toys, home decorations and gifts. If you're a crafter looking for computer ideas or a designer or teacher looking for hands-on projects *The Arts and Crafts Computer* is for you!

Family Scrapbooks Michele Gerbrandt 2001
Combine new methods with old as you merge your past and present. Translate everyday events and shared family routines into beautiful or whimsical pages that capture your special memories. Punch art, pop-ups and lift-the-flap pages, and kaleidoscopes will bring your story to life. Scrapbooks celebrate the importance of even the simplest times that we share with friends and family. With some thought and planning -- and some creativity and fun -- you can design pages that capture the essence of

each of the days in your family's lives, days that you and future generations won't want to forget.
