Bildungs- und Erziehungspartnerschaften in Schulen II Matthias Bartscher 2022-04-29 Wie können Eltern aus allen Lebenswelten motiviert werden? "Tanze mit dem Widerstand!" Die Zusammenarbeit mit Eltern, die traditionell als unmotiviert oder "bildungsfern" gelten, ist für viele Fachkräfte an Schulen eine besondere Herausforderung - aber sie kann gelingen. Und sie lohnt sich! Wie auch herausfordernde Eltern zu guten Partnern in Erziehung und Bildung werden können, zeigt der zweite Band dieses Praxisbuches. Erläutert werden theoretische Grundlagen der motivierenden Gesprächsführung und der systemischen Arbeit. Dabei geht der Autor von dem Grundsatz aus, dass Inspiration und Motivation im Inneren liegen und nicht durch Druck erzeugt werden können. Für die vielfältigen Kooperationsformen mit Eltern bietet dieser Band praktische Methoden zur professionellen und motivierenden Arbeit in Einzel- und Gruppensettings. Diese helfen, die Beziehungen zu Eltern, Jugendlichen und Kindern verbindlich und vertrauensvoll zu gestalten, gemeinsame Ziele zu formulieren und umzusetzen, aufkommende Konflikte konstruktiv zu lösen, Elternveranstaltungen lebendig und anregend zu gestalten, Beratungsgespräche professionell zu führen. Die Impulse zielen vor allem auf die Zusammenarbeit mit Menschen und sind für

Situationen gedacht, die als herausfordernd erlebt werden. Davon werden Lehrkräfte, Schulleitungen sowie alle weiteren professionellen Akteure in Schulen aller Stufen sowie ihre Kooperationspartner profitieren.

Bias-aware Teaching, Learning and Assessment Donna Hurford 2025-02-28 This book offers university teachers informed and practical strategies for raising awareness of bias in teaching, learning and assessment practices. Conscious and unconscious biases influence judgements, perceptions, decision making and actions, and societal awareness has now turned the spotlight on how higher education (HE) is addressing bias at institutional and individual levels. The urgency to do so is evidenced through recent studies which reveal the extent of the effects of discrimination and exclusion experienced by individual students, groups of students and members of staff. It can be difficult to know where to start and how to sustain effective impact to achieve inclusion, equity and equality of opportunity. This book offers informed and practical strategies for raising awareness of bias in teaching, learning and assessment practices and provides approaches to eliminate, limit and mitigate the negative effects of bias on university students.

High-Performance Coaching for Managers William J. Rothwell 2022-07-05 Coaching is a necessary skill for managers. It is important as a fundamental part of an organization's talent efforts—including talent acquisition, development and retention strategies. For a coaching program to succeed in an organization, it should be recognized as a useful approach throughout the organization and become part of the fabric of the corporate culture. Performance Coaching for Managers provides an important tool for organizations to use to train their managers on coaching. This book differs significantly from other books in the coaching market. Many books on coaching cast coaches as facilitators who question their clients (the coachees), helping them to articulate their own problems, formulate their own solutions, develop their own action plans to solve problems, and measure the success of efforts to implement those plans. That is called a nondirective approach. But this book adopts a directive approach by casting the coach as a manager who diagnoses the problems with worker job performance and offers specific advice on how to solve those problems. While there is nothing wrong with a nondirective approach, it does not always work well in job performance reviews in which the manager must inform the worker about gaps between what is needed (the desired) and what is performed (the actual). The significant difference between what is currently available in the market and what is offered in this book is the authors' collective experience of over 70 combined years of hands-on research and delivery experiences in the Human Resources Development field. According to the Harvard Business Review (2015), workers generally expect their immediate supervisors to

give them honest feedback on how well they do their jobs—and specific advice on what to do if they are not performing in alignment with organizational expectations. When workers do not receive advice—but instead are questioned about their own views—they regard their managers as either incompetent or disingenuous. Effective managers should be able to offer direction to their employees. After all, managers are responsible for ensuring that their organizational units deliver the results needed by the organization. If they fail to do that, the organization does not achieve its strategic goals. This book gives managers direction in how to offer directive coaching to their workers.

The Ladder Andrew Bernard 2021-02-19 Foreword by Colonel Dame Kelly Holmes. Regardless of one's plans for the future, many people's careers are founded on a series of chance encounters, experiences and serendipity. School, college, university, jobs, family, sports, hobbies, friends, relationships - these are all fertile grounds for career-related conversations and explorations. What if we teachers, guides, mentors, parents and peers started to notice these seemingly unconnected happenings and, indeed, started to engineer and encourage them to happen? Using the mantra 'every adult is a careers teacher', The Ladder will inspire teachers to explicitly link their subject area to students' futures, both in school and outside its walls, and support them in doing so. Bernie draws upon his 30-year career in education and business development to bring clarity, focus and ideas to educators as to how they can best start students on their own ladders to success. Ultimately, in writing this book, Bernie's aim is to bring young people's futures to life with some personal skills reflection and forward planning designed to help them as they embark on their fulfilling futures - regardless of their upbringing, academic achievements or ethnic background.

Mentoreamento de Pastores Joel Ambrosino 2023-02-28 Esta obra é uma análise teológica da relevância de um programa de mentoreamento de pastores e das técnicas a serem usadas com esse propósito. O livro apresenta a proposta de diretrizes para um programa de mentoreamento tendo como referencial três modalidades de gestão de pessoas que vêm sendo utilizadas em larga escala nas empresas, que são: o Mentoring, o Coaching e o Counseling. Com base nesses três modelos de gestão empresarial de pessoas, é proposto um amoldamento das técnicas usadas nessas ferramentas. A adequação dessas modalidades culminou na proposição de três modelos de mentoreamento de pastores. O primeiro, baseado no Mentoring, derivou no Mentoreamento de Desenvolvimento Ministerial (MDM); o segundo, respaldado no Coaching, resultou no Mentoreamento de Desenvolvimento Pessoal (MDP); o terceiro modelo, fundamentado no Counseling, suscitou o Mentoreamento de Desenvolvimento Interpessoal (MDI).
