Proof of Collusion Seth Abramson 2018-11-13 For the first time, the full, explosive record of the unthinkable: how a US president compromised American foreign policy in exchange for the promise of future business and covert election assistance. Looking back at this moment in history, historians will ask if Americans knew they were living through the first case of criminal conspiracy between an American presidential candidate turned commander in chief and a geopolitical enemy. The answer might be: it was hard to see the whole picture. The stories coming in from around the globe have often seemed fantastical: clandestine meetings in foreign capitals, secret recordings in a Moscow hotel, Kremlin agents infiltrating the Trump inner circle... Seth Abramson has tracked every one of these far-flung reports and now in, *Proof of Collusion*, he finally gives us a record of the unthinkable—a president compromising American foreign policy in exchange for the promise of future business and covert election assistance. The attorney, professor, and former criminal investigator has used his exacting legal mind and forensic acumen to compile, organize, and analyze every piece of the Trump-Russia story. His conclusion is clear: the case for collusion is staring us in the face. Drawing from American and European news outlets, he takes readers through the Trump-Russia scandal chronologically, putting the developments in context and showing how they connect. His extraordinary march through all the public evidence includes: —How Trump worked for thirty years to expand his real estate empire into Russia even as he was rescued from bankruptcy by Putin's oligarchs and Kremlin agents. —How Russian intelligence gathered compromising material on him over multiple trips. —How Trump recruited Russian allies and business partners while running for president. —How he surrounded himself with advisers who engaged in clandestine negotiations with Russia. —How Trump aides and family members held secret meetings with foreign agents and lied about them. By pulling every last thread of this complicated story together, Abramson argues that—even in the absence of a Congressional investigation or a report from Special Counsel Mueller—the public record already indicates a quid pro quo between Trump and the Kremlin. The most extraordinary part of the case for collusion is that so much of it unfolded in plain sight.

Crime in Progress Glenn Simpson 2019-11-26 In the autumn of 2015, the founders of the US political research firm Fusion GPS, Glenn Simpson and Peter Fritsch, were hired by a Republican presidential candidate to look into the records of Donald Trump. What began as a march through a mind-boggling trove of lawsuits and sketchy overseas projects soon took a darker turn, as they became the first to uncover Trump's disturbing ties to the Kremlin and the crimes that since have plagued his presidency. To help them decipher this alarming evidence, they engaged the services of an old acquaintance, the former British MI6 agent and Russia expert Christopher Steele. Steele would produce the notorious dossier which disclosed that the Trump team was deeply compromised by a hostile foreign power bent on disrupting the West and influencing the US presidential election. In *Crime in Progress*, the authors - and Steele - break their silence for the first time, chronicling their high-stakes investigation and their desperate efforts to warn both the American and

British governments, the FBI and the media, to little avail - and no matter the costs. Yet when the dossier finally exploded onto the world stage after a leak, a ten-person research firm above a Starbucks in Washington was thrust into the centre of the biggest news story on the planet - a story that would lead to the Mueller report and disrupt Trump's secret planned rapprochement with Putin's Russia that could have re-ordered the western alliance. After four years on his trail, the authors' inescapable conclusion is that Trump is an asset of the Russian government, whether he knows it or not. A real-life political thriller with the makings of a modern classic, *Crime in Progress* is the definitive story of the pursuit of the truth about Trump and one of the greatest betrayals in American history.

Unredacted Christopher Steele 2024-10-08 The intelligence officer behind the explosive “Steele Dossier” steps out of the shadows, revealing a searing new report on the threat Putin and Trump pose to democracy, based on alarming intelligence exposed in these pages for the first time “Putin is now desperate to have Donald Trump back in the White House. If he succeeds in helping Trump get reelected, I am convinced that the global political order will be utterly changed. We shall have entered a new historical era of strategic chaos, a ‘new world disorder.’ The consequences of Trump winning the 2024 election are catastrophic.” —from *Unredacted* To a unique degree, Christopher Steele has been an eyewitness observer of modern Russian history. He was a British diplomat and intelligence professional in Moscow when the Soviet Union was collapsing. Steele was there when the putsch against Mikhail Gorbachev took place and when Boris Yeltsin took over the newly independent Russia. After Vladimir Putin came to power, Steele rose to become one of British government's leading Russia experts and played a central role in the investigation into the Kremlin-ordered murder of Alexander Litvinenko. Then, in 2016, he wrote a series of explosive reports about the then presidential candidate Donald Trump and his links to Russia. Now known to the world as the “Steele Dossier,” these intelligence documents drew the world's attention to Russia's relationship with Trump—and reluctantly thrust Steele into the center of a global maelstrom. Since Trump's election, he has quietly continued his work. Indeed, Steele has had even better access to sources of information and intelligence on Russia—ones that have given him a privileged view of what's going on inside the Kremlin, and how much we in the West should worry about it. In *Unredacted*, Steele shares for the first time what that inside view looks like, how he came to the point of gaining such a level of insight, and what Western governments—and all of us—can and should do to counter this generational threat.

House of Trump, House of Putin Craig Unger 2019-09-03 THE NEW YORK TIMES BESTSELLER “The story Unger weaves with those earlier accounts and his original reporting is fresh, illuminating and more alarming than the intelligence channel described in the Steele dossier.” —The Washington Post *House of Trump, House of Putin* offers the first comprehensive investigation into the decades-long relationship among Donald Trump, Vladimir Putin, and the Russian Mafia that ultimately helped win Trump the White House. It is a chilling story that begins in the 1970s, when Trump made his first splash in the booming, money-drenched world of New York real estate, and ends with Trump's inauguration as president of the United States. That moment was the culmination of Vladimir Putin's long mission to undermine Western democracy, a mission that he and his hand-selected group of oligarchs and Mafia kingpins had ensnared Trump in, starting more than twenty years ago with the massive bailout of a string of sensational Trump hotel and casino failures in Atlantic City. This book confirms the most incredible American paranoias about Russian malevolence. To most, it will be a hair-raising revelation that the Cold War did not end in 1991—that it merely evolved, with Trump's apartments offering the perfect vehicle for billions of dollars to leave the collapsing Soviet Union. In *House of Trump, House of Putin*, Craig Unger methodically traces the deep-rooted alliance between the highest echelons of American political operatives and the biggest players in the frightening underworld of the Russian Mafia. He traces Donald Trump's sordid ascent from foundering real estate tycoon to leader of the free world. He traces Russia's phoenix like rise from the ashes of the post-Cold War Soviet Union as well as its ceaseless covert efforts to retaliate against the West and reclaim its status as a global superpower. Without Trump, Russia would have lacked a key component in its attempts to return to imperial greatness. Without

Russia, Trump would not be president. This essential book is crucial to understanding the real powers at play in the shadows of today's world. The appearance of key figures in this book—Paul Manafort, Michael Cohen, and Felix Sater to name a few—ring with haunting significance in the wake of Robert Mueller's report and as others continue to close in on the truth.

Donald Trump, Robert Mueller, Christopher Steele Diane Holloway Cheney, Ph.D. 2021-09-13 This thrilling page-turner describes the lives of the most controversial men of our era and how they impacted each other. We now realize that the greatest threat to our country can come from within as well as those not in our own country. Can an administration ignore laws and attack democratic institutions without damaging democracy? These shocking revelations are not without some humor to brighten what are otherwise dark and scary truths.

Russian Roulette Michael Isikoff 2018-03-13 The incredible, harrowing account of how American democracy was hacked by Moscow as part of a covert operation to influence the U.S. election and help Donald Trump gain the presidency. "Russian Roulette is...the most thorough and riveting account." -- The New York Times Russian Roulette is a story of political skullduggery unprecedented in American history. It weaves together tales of international intrigue, cyber espionage, and superpower rivalry. After U.S.-Russia relations soured, as Vladimir Putin moved to reassert Russian strength on the global stage, Moscow trained its best hackers and trolls on U.S. political targets and exploited WikiLeaks to disseminate information that could affect the 2016 election. The Russians were wildly successful and the great break-in of 2016 was no "third-rate burglary." It was far more sophisticated and sinister -- a brazen act of political espionage designed to interfere with American democracy. At the end of the day, Trump, the candidate who pursued business deals in Russia, won. And millions of Americans were left wondering, what the hell happened? This story of high-tech spying and multiple political feuds is told against the backdrop of Trump's strange relationship with Putin and the curious ties between members of his inner circle -- including Paul Manafort and Michael Flynn -- and Russia. Russian Roulette chronicles and explores this bizarre scandal, explains the stakes, and answers one of the biggest questions in American politics: How and why did a foreign government infiltrate the country's political process and gain influence in Washington?

War with Russia? Stephen F. Cohen 2018-11-27 Is America in a new Cold War with Russia? How does a new Cold War affect the safety and security of the United States? Does Vladimir Putin really want to destabilize the West? What should Donald Trump and America's allies do? America is in a new Cold War with Russia even more dangerous than the one the world barely survived in the twentieth century. The Soviet

Union is gone, but the two nuclear superpowers are again locked in political and military confrontations, now from Ukraine to Syria. All of this is exacerbated by Washington's war-like demonizing of the Kremlin leadership and by Russiagate's unprecedented allegations. US mainstream media accounts are highly selective and seriously misleading. American "disinformation," not only Russian, is a growing peril. In *War With Russia?*, Stephen F. Cohen—the widely acclaimed historian of Soviet and post-Soviet Russia—gives readers a very different, dissenting narrative of this more dangerous new Cold War from its origins in the 1990s, the actual role of Vladimir Putin, and the 2014 Ukrainian crisis to Donald Trump's election and today's unprecedented Russiagate allegations. Topics include: Distorting Russia US Follies and Media Malpractices 2016 The Obama Administration Escalates Military Confrontation With Russia Was Putin's Syria Withdrawal Really A "Surprise"? Trump vs. Triumphalism Has Washington Gone Rogue? Blaming Brexit on Putin and Voters Washington Warmongers, Moscow Prepares Trump Could End the New Cold War The Real Enemies of US Security Kremlin-Baiting President Trump Neo-McCarthyism Is Now Politically Correct Terrorism and Russiagate Cold-War News Not "Fit to Print" Has NATO Expansion Made Anyone Safer? Why Russians Think America Is Attacking Them How Washington Provoked—and Perhaps Lost—a New Nuclear-Arms Race Russia Endorses Putin, The US and UK Condemn Him (Again) Russophobia Sanction Mania Cohen's views have made him, it is said, "America's most controversial Russia expert." Some say this to denounce him, others to laud him as a bold, highly informed critic of US policies and the dangers they have helped to create. *War With Russia?* gives readers a chance to decide for themselves who is right: are we living, as Cohen argues, in a time of unprecedented perils at home and abroad?

The Apprentice Greg Miller 2018-10-16 From two-time Pulitzer Prize-winning Washington Post national security reporter Greg Miller, the truth about Vladimir Putin's covert attempt to destroy Hillary Clinton and help Donald Trump win the presidency, its possible connections to the Trump campaign, Robert Mueller's ensuing investigation of the president and those close to him, and the mystery of Trump's steadfast allegiance to Putin. It has been called the political crime of the century: a foreign government, led by a brutal authoritarian leader, secretly interfering with the American presidential election to help elect the candidate of its choice. Now two-time Pulitzer Prize-winning Washington Post national security reporter Greg Miller investigates the truth about the Kremlin's covert attempt to destroy Hillary Clinton and help Donald Trump win the presidency, Trump's steadfast allegiance to Vladimir Putin, and Robert Mueller's ensuing investigation of the president and those close to him. Based on interviews with hundreds of people in Trump's inner circle, current and former government officials, individuals with close ties to the White House, members of the law enforcement and intelligence communities, foreign officials, and confidential documents, *The Apprentice* offers striking new information about: the hacking of the Democrats by Russian intelligence; Russian hijacking of Facebook and Twitter; National Security Adviser Michael Flynn's hidden communications with the Russians; the attempt by Jared Kushner, Trump's son-in-law, to create a secret back channel to Moscow using Russian diplomatic facilities; Trump's disclosure to Russian officials of highly classified information about Israeli intelligence operations; Trump's battles with the CIA and the FBI and fierce clashes within the West Wing; Trump's efforts to enlist the director of national intelligence and the director of the National Security Agency to push back against the FBI's investigation of his campaign; the mysterious Trump Tower meeting; the firing of FBI Director James Comey; the appointment of Mueller and the investigation that has followed; the tumultuous skirmishing within Trump's legal camp; and Trump's jaw-dropping behavior in Helsinki. Deeply reported and masterfully told, *The Apprentice* is essential reading for anyone trying to understand Vladimir Putin's secret operation, its catastrophic impact, and the nature of betrayal.

Blind Justice Wayne Beyea 2022-05-20 Drawing on his background as a police officer, the author examines true criminal cases where legal loopholes contributed to the issuance of no sentence, or lenient sentences. In the author's opinion, these represent cases where justice was not served.

The Donald Trump Russia Dossier Danny Kay 2017-08-30 The Donald Trump-Russia dossier is a private intelligence dossier that was written by Christopher Steele, a former British MI6 intelligence officer. It contains unverified allegations of misconduct and collusion between Donald Trump and his campaign and the Russian government during the 2016 U.S. presidential election and the period preceding the election.

Stealing Your Vote Christina Bobb 2023-01-24 How Election Fraud Is Rampant, and How to Stop It before It Kills America The mainstream media has labeled it "The Big Lie," but the facts on the ground tell a very different story. While politicians on both sides of the aisle scramble to stifle all investigations into election fraud, and the mainstream media pumps out "nothing to see here" stories, investigative reporter Christina Bobb reveals the ugly truth: the 2020 election was riddled with lying, cheating, stealing, and vote dumping which disenfranchised millions of Americans and probably swayed the outcome of the election. As usual, the cover-up was even worse than the crime, as politicians, media and activists launched an all-out assault on facts and evidence, doing everything in their power to bury the truth and slander anyone who dared ask the inconvenient questions. *Stealing Your Vote* tells the story of corruption within the Democratic Party—but also reveals the cowardice throughout the Republican Party, as fat and happy politicians from both parties desperately worked to protect the status quo. Bobb also tells the story of a handful of brave patriots who tried, and continue trying, to find out just what happened in 2020. As we look forward to 2024, we face an unprecedented crisis: millions of Americans have now lost faith in the integrity of our elections. The country has become ever-more polarized, pitting those who believe the election was stolen versus those who are determined to cancel both the investigations and the doubters. But election integrity should not be a partisan issue. Fair and honest elections are the bedrock of our republic—while tainted elections are the hallmark of tyranny. If we fail to regain election integrity and the trust of the American people, all of us, Democrat and Republican, liberal and conservative, are doomed to a dark future. Christina Bobb's *Stealing Your Vote* is the first and only investigative report into what truly happened in the 2020 elections and the cover-up that followed, and what we must do now as our next presidential election approaches.

Collusion Luke Harding 2017-11-16 #1 NEW YORK TIMES BESTSELLER • An explosive exposé that lays out the story behind the Steele Dossier, including Russia's decades-in-the-making political game to upend American democracy and the Trump administration's ties to Moscow. "Harding...presents a powerful case for Russian interference, and Trump campaign collusion, by collecting years of reporting on Trump's connections to Russia and putting it all together in a coherent narrative." —The Nation December 2016. Luke Harding, the Guardian reporter and former Moscow bureau chief, quietly meets former MI6 officer Christopher Steele in a London pub to discuss President-elect

Donald Trump's Russia connections. A month later, Steele's now-famous dossier sparks what may be the biggest scandal of the modern era. The names of the Americans involved are well-known—Paul Manafort, Michael Flynn, Jared Kushner, George Papadopoulos, Carter Page—but here Harding also shines a light on powerful Russian figures like Aras Agalarov, Natalia Veselnitskaya, and Sergey Kislyak, whose motivations and instructions may have been coming from the highest echelons of the Kremlin. Drawing on new material and his expert understanding of Moscow and its players, Harding takes the reader through every bizarre and disquieting detail of the "Trump-Russia" story—an event so huge it involves international espionage, off-shore banks, sketchy real estate deals, the Miss Universe pageant, mobsters, money laundering, poisoned dissidents, computer hacking, and the most shocking election in American history.

Collusion Luke Harding 2017-11-16 MOSCOW, July 1987. Real-estate tycoon Donald Trump visits Soviet Russia for the first time at the invitation of the government. LONDON, December 2016. Luke Harding meets former MI6 officer Christopher Steele to discuss the president-elect's connections with Russia. Harding follows two leads; money and sex. WASHINGTON, January 2017. Steele's explosive dossier alleges that the Kremlin has been 'cultivating, supporting, and assisting' Trump for years and that they have compromising information about him. Trump responds on twitter, 'FAKE NEWS.' In *Collusion*, award-winning journalist Luke Harding reveals the true nature of Trump's decades-long relationship with Russia and presents the gripping inside story of the dossier. It features exclusive new material and draws on sources from the intelligence community. Harding tells an astonishing story of offshore money, sketchy real-estate deals, a Miss Universe Pageant, mobsters, money laundering, hacking and Kremlin espionage. He shines a light on powerful Russian players like Aras Agalarov, Natalia Veselnitskaya and Sergey Kislyak, whose motivations and instructions may have come from Vladimir Putin himself. The special prosecutor, Robert Mueller, has already indicted several of the American protagonists, including Trump's campaign manager, Paul Manafort. More charges are likely as the crisis engulfs Trump's administration. This book gets to the heart of the biggest political scandal of the modern era. Russia is reshaping the world order to its advantage; this is something that should trouble us all.
