## **Contract Administration** Ian Davies

2019-06-27 The RIBA Plan of Work 2013 Guide: Design Management is part of a brand new series providing must-read practical guidance to running efficient and successful projects using the new RIBA Plan of Work 2013. Each guide takes a core project task - in this case the role of the Contract Administrator - and explains the essential activities and considerations required at each stage of the new Plan of Work. Easy to use and navigate and in a small and handy format these guides will provide the ultimate quick reference support at your desk or on site. The author provides concise and pragmatic advice rooted in real world experience - a 'how to' that will resonate with practitioners. In-text features such as 'hints and tips', 'checklists', 'forms and templates' and 'signposts' to trusted resources will provide user-friendly support. Boxed examples will highlight best practice and illuminate common problems and solutions borne of hard won experience.

## Guide to the RIBA Domestic and Concise Building Contracts 2014 Sarah Lupton

2019-08-08 This latest title from Sarah Lupton, best-selling author of construction contract guides, provides comprehensive guidance to the RIBA's two new building contracts: the RIBA Domestic Building Contract 2014 and the RIBA Concise Building Contract 2014. Introducing the contracts' features and benefits and covering all aspects of their use, from choosing and forming the right one for your project to guiding the parties through all its various stages, the Guide serves as the definitive introduction and an invaluable desktop reference for the busy contract administrator. Written in plain English to complement the RIBA Building Contracts themselves, the Guide assumes no prior knowledge of construction law or contracts; it is therefore also the ideal reference book for construction students on the threshold of undertaking their professional examinations.

## **BIM for Construction Health and Safety**

Stefan Mordue 2019-08-13 What is BIM and how does it affect the health and safety professional?

How are BIM technologies used on a practical level? What opportunities are there for the use of BIM in the health and safety arena? This concise and practical guide aims to answer all these questions and more. The health and safety role is evolving towards collaboration, structured data and sharing of information as BIM - the incarnation of these sensibilities - increasingly underpins construction practice. As the industry begins to see how these two topics can and should intersect this guide provides context and practical advice by explaining the basic principles of BIM, how it will shape the health and safety professional's role and what tools and processes will need to be embedded in the future. It also highlights the wealth of opportunities that BIM provides to improve health and safety standards and effective coordination - the means to exploit the potential of BIM.

## *Construction Tendering* Andrew E. Cook 1991

The ability to tender successfully is vital for the survival of building firms in today's competitive environment. This book sets out the skills and knowledge required by the professional builder in this key area. Based throughout on the most up-to-date practice, and including questions for discussion at the end of each chapter, the book is particularly relevant to the needs of students taking examinations for the CIOB Member parts 1 and 2. It can also be used for degree, diploma and post-experience courses in building, surveying and civil engineering and for the continuing professional development of those already working in the industry.

## *Professional Practice for Landscape Architects*

Rachel Tennant 2015-09-16 Professional Practice for Landscape Architects third edition deals with the practical issues of being a successful landscape architect professional. Endorsed by the Landscape Institute, this book is an indispensable guide for licentiate members of the Institute on their Pathway to Chartership. It follows the revised 2013 syllabus covering all aspects of professional judgement, ethics and

values, the legal system, organisation and management, legislation and the planning system, environmental policy and control, procurement and implementation. It also serves as a reminder and reference for fully qualified professionals in their everyday practice and for landscape students. Valuable information is presented in an easy to follow manner with diagrams and schedules, key acts, professional documents and contracts clearly explained and made easy to understand. A handy list of questions are included to aid with P2C revision, answers of which are found within the text.

*Code of Practice for the Selection of Main Contractors* Construction Industry Board (Great Britain). Working Group 3 1997 "This code focuses on the procedures appropriate for competitive tendering" -- p.5.

*Practice Note - Tendering 2012* Joint Contracts Tribunal 2012-08-16 Fully revised and updated Scottish Civic Government Licensing Law, 3rd Edition is a handy guide to this area of licensing law. This book provides a detailed narrative introduction, and a full copy of the consolidated Act along with practical section-by-section annotated commentary guiding you through the law.
