Spon's Architects' and Builders' Price Book 2018 AECOM 2017-09-22

Construction prices rose over the last year by 5%, according to AECOM's tender price index, with construction price inflation continuing to run above the long-run average. The main drivers are rising input costs.

Producer price indices have moved up at a clip in recent quarters, with sharp increases in prices for materials and fuels consumed by UK manufacturers. Demand- and supply-side factors make the probability of short-term price falls very slim. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2018, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get set up with a VitalSource® ebook of this 2018 edition. This versatile and powerful online data viewing package is available for use until the end of December 2018. Major changes have been made to this 143rd edition: New Cost Models for a retail distribution unit, a palliative care unit, and a cinema As well as an overhaul of prices, several new items have been added, including: An expanded range of beam & block flooring Rainwater harvesting - with a precast concrete tank A precast concrete flow attenuation system Precast concrete communication boxes ... along with the standard features you have come to expect from SPON'S ARCHITECTS' AND

BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups.

Hundreds of alternative materials prices for the more unusual items.

Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updates, free of charge, two or three times a year - see inside for registration details. Updates are available online at www.pricebooks.co.uk

[Spon's Architects' and Builders' Price](#) Davis Langdon 2009-08-18 In today's economic turmoil most materials costs are still rising but tender prices are falling sharply. So looking at price lists is not enough - you need Spon's Architects' and Builders' Price Book 2010 to find out what contractors are actually charging and to get for real price data. Compiled by Davis Langdon, Spon's Architects' and Builders' Price Book provides the most accurate, detailed and professionally relevant construction price information currently available for the UK. Its unique Tender Index, updated through the year, provides an ongoing reality check and adjustment for changing market conditions. This is the only price book which sets out a detailed cost base for Major Works contracts exceeding £3,500,000 in value. Major changes have been made to this 135th edition: Overheads and profits have been revised sharply downwards to 2.5% in line with actual levels. Preliminaries have also been dropped to 13%, on a lower cost base. And labour rates have been adjusted to reflect today's economic conditions. As well as updating all prices, Spon's

Architects' and Builders' Price Book 2010 includes about 150 new Measured Works items, including: Additional ACO drainage systems such as Qmax - a large capacity drainage channel and Kerbdrain made from recycled and recyclable material An overhauled Kalzip roofing section Plus, over 900 key Approximate Estimate items with high & low rate ranges And 13 elemental building cost models Buyers of this 2010 edition can make a free internet download of Spon's Architects' and Builders' price data, which will run to the end of 2010 and: - Access Spon's new Approximate Estimates rate data, as well as the Measured Works data - Produce estimate and tender documents - Generate priced or unpriced schedules - Adjust rates and data and enter rogue items - Export schedules into Excel - Carry out an index search This year, for the first time, the download includes a versatile and powerful ebook. ...plus all the standard features you have come to expect from Spon's Architects' and Builders' Price Book: - 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups - 600 pages of Major and Minor Works items - Hundreds of alternative materials prices, easily substituted into the build-up calculations, for the more unusual items - Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses - Updated, free of charge, every four months - see insider for registration details. Estimator's Pocket Book Duncan Cartlidge 2019-02-21 The Estimator's Pocket Book, Second Edition is a concise and practical reference covering the main pricing approaches, as well as useful information such as how to process sub-contractor quotations, tender settlement and

adjudication. It is fully up to date with NRM2 throughout, features a look ahead to NRM3 and describes the implications of BIM for estimators. It includes instructions on how to handle: the NRM order of cost estimate; unit-rate pricing for different trades; pro-rata pricing and dayworks; builders' quantities; approximate quantities. Worked examples show how each of these techniques should be carried out in clear, easy-to-follow steps. This is the indispensable estimating reference for all quantity surveyors, cost managers, project managers and anybody else with estimating responsibilities. Particular attention is given to NRM2, but the overall focus is on the core estimating skills needed in practice. Updates to this edition include a greater reference to BIM, an update on the current state of the construction industry as well as up-to-date wage rates, legislative changes and guidance notes.
