The McGraw-Hill Internet Training Manual Ronald L. Wagner 1996 Designed for the world of business, here is a complete, single-volume Internet training manual. Using a workbook-style approach, the guide details "netiquette" and other key areas of importance for professionals doing business online. Topics include creating a Web site, writing for the Internet, linking to other pages, and more.

EBOOK: Basic Statistics For Business and Economics Douglas Lind 2012-04-16 The 8th edition of Lind/Marchal/Wathen: Basic Statistics for Business and Economics, is a step-by-step approach that enhances student performance, accelerates preparedness and improves motivation for the student taking a business statistics course. The main objective of the text is to provide students majoring in all fields of business administration with an introductory survey of the many applications of descriptive and inferential statistics. The relevant approach taken in this text relates to the college students today as they will receive the information that is important to them in this class as well as their future careers. Understanding the concepts, seeing and doing plenty of examples and exercises, and comprehending the application of statistical methods in business and economics are the focus of this book.

Carpe Mañana Leonard Sweet 2001 The Message Never Changes. But Our Methods Must. If God so loved the world . . . then we ought to, too. But how? While the church dreams of old wineskins, the future is arriving, and the world around us has undergone a radical transformation. Those of us over thirty are no longer natives of a modern culture, but immigrants in a postmodern society that speaks the language of cyberspace, grapples with the implications of robotics, nanotechnology, and bioengineering, and looks everywhere but to the church for spiritual and moral guidance. But the gospel sun, far from setting, is poised to shine on this new frontier--provided we'll seize tomorrow and its unprecedented opportunities. The possibilities are limitless for those of us who choose to live as Jesus lived, as people of our time and culture. Carpe Manana helps us go native. In nine 'naturalization classes,' Leonard Sweet speeds us toward influence in this postmodern world--a world hungry to encounter the God who knows its soul, speaks its language, and loves it with an all-transforming love.

Peter Norton's Introduction to Computers Fifth Edition, Computing Fundamentals, Student Edition McGraw-Hill Education 2002-10-07 Peter Norton's Introduction to Computers 5th Edition is a state-of-the-art series that provides comprehensive coverage of computer concepts.
