Principles of Tort Law
Rachael Mulheron 2020-10-22
This book does what it 'says on the tin' - stating the corpus of tort law as a body of principles. Undertaken for the first time in English tort law, this book describes the law of tort concisely, accessibly, and accurately, and with both depth and detail.

**Forensic Practice in the
Community** Zoë Ashmore
2014-08-01 Forensic practice in the community is a neglected subject. There are many books looking at forensic work in secure settings, such as prisons or hospitals, but very little has been written about forensic practice in the community. This book describes the current and exciting developments in this area, for both young people

and adults, by leaders in their field. It is in the community where interventions with those who have offended are all ultimately tested. Bringing together a range of experts from both the practitioner and academic community, this book covers:

- multisystemic therapy for families,
- sexual and violent offending,
- learning disabilities,
- substance misuse,
- risk assessment, prediction and management,
- personality disordered offenders
- resettlement following custody,
- desistance of criminal behaviour,
- community interventions.

Beginning with an overview of forensic practice in the community, the book addresses policy, practice and ethical issues, focusing on the specific dilemmas facing practitioners and providing an analysis of international perspectives. It describes how to meet the challenge of significantly diverting and reducing the prison population through more effective community intervention with adults and young people and also makes

suggestions for the future. This book offers a range of recent case studies, has descriptions of new areas of community practice by those working or studying in that area and covers cutting-edge developments in practice and policy. It will be of interest to academics, practitioners and students in forensic psychology, as well as social workers, probation officers, youth offending officers, police officers, criminal justice agencies and mental health professionals.
