Evoking spirits is one of the most powerful magical techniques you can use-but, until now, most of the material available on evocation has been virtually unusable because it was written by those with little practical evocation experience. *Summoning Spirits* was written by a practicing magician who has

successfully performed many evocations. With his guidance and clear directions, performing evocations will be easy and safe for anyone. Learn to safely evoke powerful spirits to aid you with any task Create sigils charged with the energy of spirits to magnify the effects of your evocations Make an etheric egregore, a manufactured spirit that will perform the task of your choice Perform easy exercises to train your magical abilities and to develop clairvoyance and clairaudience Construct, prepare, and use special magical tools to aid your evocations *Summoning Spirits* is a complete manual for evoking entities to effect positive changes in your life. Learn how the spirits that dwell on the other planes can be evoked to the astral and physical planes to help you obtain mystical abilities, locate hidden "treasure," and even command a spirit "army" to protect your home while you're away. *Summoning Spirits* describes the specific attributes and abilities of 50 entities that you can evoke to uncover valuable knowledge, and who will help you succeed in nearly any task, magical or mundane. Whether you need help to face life's challenges or to work a minor miracle, you will find the art of magical evocation a tremendously potent tool for change. Speak with the Dead Konstantinos 2004 Formerly titled "Contact the Other Side," this book shows how to use technology to open the door to the spiritual world.

The Nocturnal Witch Collection Konstantinos 2007 Embrace the shadows and explore the dark side of magick with this boxed set of Konstantinos favorites. "Nocturnal Witchcraft" introduces how to work with lunar powers and spiritual entities that prefer the darkness. Learn to cast a nocturnal magick circle, skry the night, open the gates to the underworld, and use dark symbols in your night rituals. Expand your connection to the dark ether and the unseen world with "Gothic

Grimoire." This book features techniques and rituals taken directly from Konstantinos' personal magickal notebooks, including the Nocturnicon, rites for overcoming obstacles that appear in the life of the nightkind. From astral travel to working with thoughtforms, "The Nocturnal Witch Collection" will help you connect with the positive side of the dark-ness. Contact the Other Side Konstantinos 2001 The reasons are many--proof of survival, descriptions of the afterlife, words of love, resolution of conflict; a farewell never spoken-but the search for communication with those who have died is as old as the human race. Maybe just reading about these conversations between the worlds is not enough for you. Maybe you want to experience these life-changing exchanges for yourself. If so, Contact the Other Side is the book you are looking for. This is not just another collection of stories describing other peoples' experiences. It is filled with simple, clear instructions that will give you a range of methods for seeing, hearing, and speaking with the dead. In recent times, technology has given us powerful new tools for making these contacts. Using things you probably already own like a camcorder, computer, or tape recorder, you can contact departed loved ones or other spirits, record their images and voices, and establish two-way communications between the worlds. The more traditional methods of seance, trance, and scrying are also detailed. Best of all, you don't have to be an "techie" or an occultist to use any of these techniques-they are written so any ordinary person can simply choose whatever technique feels best. The benefits to be gained from communicating with those on the other side are wide-ranging, and are unique to each of us. But there is one thing that is of great interest to most people-the departed are the only ones in a position to definitively answer the age-old question "What happens to us when we die?"
