A New Reference Grammar of Modern Spanish, 4th Edition John B. Butt 2014-02-04 This text provides a comprehensive guide to the forms and structures of the Spanish spoken and written in Spain and Latin America. Examples have been introduced, drawing on contemporary Spanish and Latin American usage.

Tension and Contention in Language Education for Latinxs in the United States Glenn A. Martínez

2019-10-08 Applying a critical lens to language education, this book explores the tensions that Latinx students face in relation to their identities, social and institutional settings, and other external factors.

Across diverse contexts, these students confront complex debates and contestable affirmations that intersect with their lived experiences and social histories. Martinez and Train highlight the pedagogic and ethical urgency of teacher responsibility, learner agency and social justice in critically addressing the consequences, constraints, and affordances of the language education that Latinx students experience in historically-situated and institutionally defined spaces of practice, ideology and policy. Reframing language studies to take into account the roles of power, inequality, and social settings, this book provokes dialogue between areas of language education that rarely interface. Through privileging the learner experience, the book provides a window to the contested spaces across language education and generates new opportunities for engagement and action. Offering nuanced and insightful analyses, this book is ideal for scholars, language researchers, language teacher educators and graduate students in all areas of language education.

Language as Cultural Practice Sandra R. Schecter 2005-04-11 Language as Cultural Practice: Mexicanos en el Norte offers a vivid ethnographic account of language socialization practices within Mexican-background families residing in California and Texas. This account illustrates a variety of cases where language is used by speakers to choose between alternative self-definitions and where language interacts differentially with other defining categories, such as ethnicity, gender, and class. It shows that language socialization--instantiated in language choices and patterns of use in sociocultural and sociohistorical contexts characterized by ambiguity and flux--is both a dynamic and a fluid process. The study emphasizes the links between familial patterns of language use and language socialization practices on the one hand, and children's development of bilingual and biliterate identities on the other. Using a framework emerging from their selection of two geographically distinct localities with differing demographic features, Schecter and Bayley compare patterns of meaning suggested by the use of Spanish and English in speech and literacy activities, as well as by the symbolic importance ascribed by families and societal institutions (such as schools) to the maintenance and use of the two languages. Language as Cultural Practice: *provides a detailed account of the diversity of language practices and patterns of use in language minority homes; *offers educators detailed information on the language ecology of Latino homes in two geographically diverse communities--San Antonio, Texas, and the San Francisco Bay Area, California; *shows the diversity within Mexican-American communities in the United States--families profiled range from rural families in south Texas to upper middle class professional families in northern California; *provides data to correct the prevalent misconception that maintenance of Spanish interferes with the acquisition of English; and *contributes to the study of language socialization by showing that the process extends throughout the lifetime and that it is an interactive rather than a one-way process. This book will particularly interest

researchers and professionals in linguistics, anthropology, applied linguistics, and education, and will be useful as a text in graduate courses in these areas that address language socialization and learning.

Handbook of Latin American Studies 1970 Contains scholarly evaluations of books and book chapters as well as conference papers and articles published worldwide in the field of Latin American studies. Covers social sciences and the humanities in alternate years.

Teaching Proficiency Through Reading and Storytelling (TPRS) Karen Lichtman 2018-06-12 This module introduces Teaching Proficiency through Reading and Storytelling (TPRS), an input-based language teaching method. TPRS provides a framework for teaching classes completely in the target language—even those at the beginner level. Through the steps of establishing meaning, creating a story that is acted out live in class, and reading, students understand and use the target language to communicate right away. Research shows that over time TPRS creates fluent speakers who excel both on traditional tests and—more importantly—in real-life situations. This is a valuable resource on TPRS for world language teachers, language teacher educators, and second language researchers.

Fluency Through TPR Storytelling Blaine Ray 1998 This work discusses the success some teachers have had with TPR (Total Physical Response) storytelling in helping their students achieve fluency in a foreign language.
