Religion and Dangerous Environmental Change Dieter Gerten 2010

Given the increasing threats of environmental changes to human societies it is imperative to complement technological and economical problem solutions with alternative perspectives from the humanities and the arts. This pioneering book attempts to advance climate and environmental sciences by including religion as a microcosm of cultural response to environmental change. The authors are renowned in disciplines as diverse as hydrology, religious studies, theology, cultural studies, philosophy and visual arts. They exemplify how religion can contribute to sustainable mitigation of climate change and to creative adaptation to its impacts, thus preparing for a deep cultivation of research on religion in environmental change.

Yearbook of International Organizations 2014-2015, Volumes 1A And 1B (SET) Union of International Associations 2014-06-16 Volume 1 (A and B)

covers international organizations throughout the world, comprising their aims, activities and events.

Safeguarding Intangible Cultural Heritage Janet Blake 2023-11-03 This book presents a detailed analysis of the different approaches and measures for implementing the requirements of UNESCO's 2003 Convention on Safeguarding Intangible Cultural Heritage (the Convention) and a practical interpretation of that treaty, based on the experience of States' Parties and other primary actors. The book considers the interests of multiple stakeholders and takes account of how the Convention interacts with other international law regimes pertaining to both human rights and sustainable development.

Ready or Not Stacie G. Goffin 2019-06-14 Ready or Not made its mark in 2007 by boldly calling for a field-wide response to the question: "What defines and bounds early care and education as a field of practice?" A dozen years later, this question remains pivotal to the field's understanding of its present and its aspirations for the future. In this updated and expanded edition, Goffin and Washington reunite to examine the major issues that must still be addressed if children are to be given more and better opportunities. This second edition will help everyone whose work impacts the ECE workforce, including those working directly with children, to deepen their commitment to adaptive and systems work and to develop the leadership capacity needed to become change agents. Ready or not, early childhood education needs to tackle its adaptive challenges. Nothing less will enable it to shift the field's developmental trajectory, fulfill its potential, and satisfy its obligations to children, families, and society. "The second edition of Ready or Not is a reflective self-examination of the field of early care and education. It is a must-read book." —Marquita Furness Davis, Bill & Melinda Gates Foundation "Goffin and Washington boldly identify the barriers and opportunities we face." —Anne Douglass, University of Massachusetts Boston "A must-read for those that are invested in early care and education." —Tracy Ehlert, State Representative for Iowa House District 70, Cedar Rapids, IA "A must-read for everyone who is committed to the field's success." —Ariel Ford, Office of Early Learning, City of Chattanooga

Subject Guide to Books in Print 1971

Yemen Steven C. Caton 2013-04-09 Yemen is a country that is critical to U.S. security and our political interests, yet most Americans know virtually nothing about it. This book unlocks its secrets and explains its complexities in simple yet compelling language. A nation with a rich civilization that has spanned 3,000 years, Yemen is the only democratic republic in the Arabian Peninsula. While events in modern-day Yemen are often in international news, most Americans know nothing about this country—nor are there easy-to-read, up-to-date resources for lay audiences. This book fills the gap in the literature. It describes Yemen's geography, economy, politics and government, history, culture, society and contemporary events, presenting a comprehensive but accessible overview of the country from many different angles—coverage that is long overdue. Editor Steven C. Caton has taken care to create a resource that is readily comprehensible to non-specialists such as high school and college students and general readers as well as highly informative for those with previous knowledge about Yemen. His thorough treatment provides synthetic overviews of key topics, discusses and dismisses certain misconceptions about Yemen, offers surprising perspectives on

the relatively unknown country, and underscores Yemen's importance to the region and the wider world—both in ancient times and today.

Neue Instrumente für die Europäische External Governance Katharina

Sophia Burlafinger 2018-03-14 Katharina Sophia Burlafinger geht der Frage nach, was europäische Stiftungen erreichen können, um den Einfluss der Europäischen Union auf ihre Nachbarschaft zu erhöhen.

Dazu analysiert die Autorin die Lebens- und Gedankenwelt zivilgesellschaftlicher Aktivistinnen in der Mittelost-Nordafrika-Region. Dieser Perspektivwechsel auf die Graswurzelebene ermöglicht besonders authentische Daten und Einblicke in ein bisher unterbelichtetes Themenfeld. Die Analyse zeigt deutlich Probleme, aber auch Fortschritte in der europäischen Demokratieförderung auf und kommt zu dem Ergebnis, dass konventionelle Instrumente zum Regel- und Normentransfer in der Zukunft stärker durch weiche Instrumente wie die der Stiftungen ergänzt werden sollten.
