Introduction to Management Accounting Charles

T. Horngren 1990 No prior accounting or business knowledge is needed to successfully complete this book. Accounting 4/E pays very careful attention to making accounting information interesting and relevant to the reader. A number of infographics, worked-out examples, charts, and illustrations visually reinforce material. The book provides insight and step-by-step instructions on how business decision makers use financial statements and other forms of accounting information. It illustrates how to navigate through accounting resources on the web. Emphasizes topics in depth while incorporating new real company examples. For those working within accounting or considering accounting/business profession or even those owning a small business.

Issues in Financial Accounting Scott

Henderson 2015-05-20 Issues in Financial

Accounting addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of

financial statements. Henderson provides the best balance of technical and theoretical coverage in any Financial Accounting text on the market today, with its presentation of real-world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's (AASB) program of changes to make accounting standards equivalent to International Financial Reporting Standards.
