QuickBooks 2005: The Missing Manual

Bonnie Biafore 2005-02-24 Every company large and small wants to boost its sales, control its spending, and keep the auditors at the Internal Revenue Service happy. But, no company wants to waste time on more paperwork. These days, a growing number of companies are turning to QuickBooks accounting software not only to speed up their bookkeeping efforts, but manage their businesses more effectively. Organizations come in all shapes, sizes, and business models, so it's no surprise that accounting practices can be a convoluted road to travel. QuickBooks can handle many of the financial tasks companies face, but the price you pay is an overabundance of software features. To make the learning curve even more challenging, QuickBooks doesn't come with a manual. Fortunately, to help pave the road to accounting success, there's QuickBooks 2005: The Missing Manual, a comprehensive guide from O'Reilly that examines everything the QuickBooks Pro edition has to offer, from invoices and inventory to assets and accounts payable. With QuickBooks 2005: The Missing Manual, financial managers can quickly learn how to use the program's tools to implement and maintain critical accounting processes. By covering details in a friendly and light-hearted way, the book explains when and why a feature is useful, and then offers indispensable, relevant advice. Each page of this Missing Manual provides insightful tips and tricks to help readers become more efficient, sophisticated users no matter what the extent of their existing knowledge is. Whether you're interested in QuickBooks for its basic bookkeeping features or its more powerful, business planning tools, the only way to truly harness its power is to read the book that should have been in the box: QuickBooks 2005: The Missing Manual.

Easy WP Guide WordPress Manual Anthony Hortin 2015-10-23 It might be easier to say what this guide isn't, rather than what it is. It isn't an in depth look at every single function available within the WordPress dashboard. Nor is it a guide to help you develop or modify WordPress themes. It's an easy to follow WordPress manual that will help you to get an overall understanding of how you use the various features within the WordPress Dashboard to keep your website or blog updated. The official WordPress Codex is great if you want to get really involved in developing your own WordPress theme or modifying your site with plugins, but it can be a bit daunting for those users who just want a simple guide to using the Content Management side of WordPress or just need to update their site pages every so often. The Easy WP Guide will teach you how to add content to your website and keep it updated, simply and easily. This version has been completely updated for use with WordPress 4.3.
